3 -4 YEARS OF AGE, PRE-KINDERGARTEN:

DPT 4 Doses
Polio 3 Doses
Measles 1 Dose (given after the 1st birthday) and may be listed as MMR
Mumps/Rubella 1 Dose (given after the 1st birthday) and may be listed as MMR
Hib 3 or 4 Doses (with at least one given on/after 1st birthday) OR 1 Dose (given on/after 15 months of age)
Not required after 5 yrs. old
Hep B 3 Doses, OR serologic confirmation of immunity
Varicella 1 Dose (given after 1st birthday), OR written validation from parent or doctor of approximate date of disease, OR serologic confirmation of immunity.
Hepatitis A 2 Doses (given after 1st birthday) OR serologic confirmation of immunity
Pneumococcal 1 Dose after 24 months of age, OR completed series before 24 months
Completed Pneumococcal [Prevnar, PCV7, PCV13] series includes:
2-3 doses before 12 months of age, and an additional 1 dose after 12 months;
or 0-1 dose before 12 months, and an additional 2 doses after 12 months
Not required after 5 yrs. old
Influenza Not required but highly recommended annually

KINDERGARTEN – 6th GRADE:

DPT 4 Doses if younger than 7 yrs. of age (at least one dose after 4th birthday)
3 Doses if 7 yrs. of age or older (at least one dose after 4th birthday);
Polio 3 or 4 Doses (at least one dose after 4th birthday)
  •  If a combination of OPV and IPV was given, required to have minimum 4 doses but do not have to have dose on/after 4th birthday.
Measles 2 Doses (given after 1st birthday) and may be listed as MMR
Mumps/Rubella 2 Doses (given after 1st birthday) and may be listed as MMR *If student completed 2 doses of measles and 1 dose each of mumps and rubella (all doses after 1st bday) prior to 2009, student satisfies this requirement.
Hep B 3 Doses, OR serologic confirmation of immunity
Varicella 2 Doses (given after 1st birthday), OR written validation from parent or doctor of approximate date of disease, OR serologic confirmation of immunity.
Hepatitis A 2 Doses (given after 1st birthday) OR serologic confirmation of immunity
Influenza Not required but highly recommended annually
Hib Not required after 5 years of age
Pneumococcal Not required after 5 years of age

2019-2020 Immunization Requirements

SECONDARY

7TH GRADE:

DPT 3 Doses (at least one dose after 4th birthday); A booster (Tdap) is required if 5 or more years have passed since the last dose of tetanus containing vaccine. If five years has not elapsed since the last dose of tetanus containing vaccine, then it will become due as soon as the 5 year interval passes.

Polio 3 or 4 Doses (at least one dose after 4th birthday) *If a combination of OPV and IPV was given, required to have minimum 4 doses but do not have to have dose on/after 4th birthday.

Measles 2 Doses (given after 1st birthday) and may be listed as MMR

Mumps/Rubella 2 Doses (given after 1st birthday) and may be listed as MMR *If student completed 2 doses of measles and 1 dose each of mumps and rubella (all doses after 1st bday) prior to 2009, student satisfies this requirement.

Hep B 3 Doses, OR serologic confirmation of immunity

Varicella 2 Doses (given after 1st birthday), OR written validation from parent or doctor of approximate date of disease, OR serologic confirmation of immunity.

Quadivalent Meningococcal 1 Dose on/after 11th birthday (a dose received on/after 10th birthday will be accepted).

Meningococcal B Not required but highly recommended

Hepatitis A 2 Doses (given after 1st birthday) OR serologic confirmation of immunity

Influenza Not required but highly recommended annually

8th-10th GRADE:

DPT 3 Doses (at least one dose after 4th birthday); A booster is required every 10 years (Tdap)

Polio 3 or 4 Doses (at least one dose after 4th birthday) *If a combination of OPV and IPV was given, required to have minimum 4 doses but do not have to have dose on/after 4th birthday.

Measles 2 Doses (given after 1st birthday) and may be listed as MMR

Mumps/Rubella 2 Doses (given after 1st birthday) and may be listed as MMR *If student completed 2 doses of measles and 1 dose each of mumps and rubella (all doses after 1st bday) prior to 2009, student satisfies this requirement.

Hep B 3 Doses, OR serologic confirmation of immunity

Varicella 2 Doses (given after 1st birthday), OR written validation from parent or doctor of approximate date of disease, OR serologic confirmation of immunity.

Quadivalent Meningococcal 1 Dose on/after 11th birthday (a dose received on/after 10th birthday will be accepted). Booster dose between 16-18 yrs. recommended

Meningococcal B Not required but highly recommended

Hepatitis A 2 Doses (given after 1st birthday) OR serologic confirmation of immunity

Influenza Not required but highly recommended annually

11th – 12th GRADE:

DPT 3 Doses (at least one dose after 4th birthday); A booster is required every 10 years (Tdap)

Polio 3 or 4 Doses (at least one dose after 4th birthday) *If a combination of OPV and IPV was given, required to have minimum 4 doses but do not have to have dose on/after 4th birthday.

Measles 2 Doses (given after 1st birthday) and may be listed as MMR

Mumps/Rubella 2 Doses (given after 1st birthday) and may be listed as MMR *If student completed 2 doses of measles and 1 dose each of mumps and rubella (all doses after 1st bday) prior to 2009, student satisfies this requirement.

Hep B 3 Doses, OR serologic confirmation of immunity

Varicella 2 Doses (given after 1st birthday), OR written validation from parent or doctor of approximate date of disease, OR serologic confirmation of immunity.

Quadivalent Meningococcal 1 Dose on/after 11th birthday (a dose received on/after 10th birthday will be accepted). Booster dose between 16-18 yrs. recommended

Meningococcal B Not required but highly recommended

Hepatitis A Not required but 2 doses highly recommended

Influenza Not required but highly recommended annually
