RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		traffic low	safety	security	walkability	
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Traffic flow for drop off and pick up	Safety and security	Large outside area like current school	Parking lot to be able to walk child into school	
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety and security	green space/playground	traffic	Size of school, parking	I believe the current location chosen for the new school is horrible. It's tiny, going to congest an already busy intersection even more, there is no space for a playground/outside. If there is a fire/emergency (as I believe the school would have multiple levels) the time to get all kids and staff out is increased and could be a serious hazard and there is absolutely no space for even staff parking. A bad choice for an elementary.
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Location	Safety	Traffic	Experienced Teaching Staff	
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety and Security	Level of Staff	Available funds for teaching ,achieving and learning	Technology available to students	
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Traffic flow	Splitting friends who have been together since K	Safety	Walkability	I honestly beilve that splitting the school will tear our community apart.
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		No school at WRT location	No school in existing WRE elementary attendance zone			I am very concerned in the manner that RISD went about trying to build the school at the WRT location. Due to the lack of communication with the community it appears RISD tried to sneak the WRT school by the residents. RISD then proceeded to try and divide the community to counter the opposition to the school. I am embarrassed by the RISD leadership and they have lost my trust. This embarrassing behavior was further demonstrated by the RISD employee taking down the sign on the private property next to the WRT location (I continue to believe this action was directed by RISD leadership). I will continue to monitor this situation closely and will support RISD leadership and board changes if the actions of RISD do not improve. Because of this it is hard to support any vague proposals like those listed in this survey, (i.e. Re-balance the current attendance zones and spread the additional students out across other local schools). I would suggest very specific options be presented to the community for us to provide feedback on.
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.						
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		traffic	safety	walkability		I believe adding on to White Rock is the most feasible solution, however I do have some reservations regarding traffic which is already extremely heavy.
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		No new school	No new school	No new school	No new school	RISD made a mistake acquiring the WRT property and should sell it to a commercial developer.
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.	I want a very fiscally sound, fast, efficient solution. Building a new \$40M school is not fast or efficient. I adamantly oppose any new school in the WRE boundary. Adding on to current WRE and expanding the cafeteria and gym is a much more efficient solution, can be finished within one year, and the overcrowding problem is easily solved. To me, there is virtually no difference between a 900 kid school and a 1,000 kid school. The next most efficient solution is to rezone the minimum amount of households as possible from attending WRE to instead attending Northlake, and then expanding and improving Northlake as needed to address the added students. For efficiency, the rezoned households should be as close as possible to Northlake. I have heard support from many parents who potentially may be rezoned to Northlake for this option. This also is a highly efficient solution, if the Board has the political guts to implement it.	I will NEVER support a new school in WRE zone.	I will NEVER support a new school in WRE zone.	I will NEVER support a new school in WRE zone.	I will NEVER support a new school in WRE zone.	I will NEVER support a new school in WRE zone. The best solutions are to either expand WRE slightly to address the problem, or rezone the minimum amount of students (located closest to Northlake) as possible from WRE to Northlake to alleviate pressure at WRE. Both of these solutions are much cheaper, faster, and more efficient than building a new \$40M school.
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety and security	Ample space for all aspects of a normal campus	Walkability	Traffic flow	Having too much school building for a temporary population increase and then what negative outcomes may follow for those schools as area population of elementary aged children decreases
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Neighborhood school	Traffic flow	Safety		
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Walkability	Safety			It is important that kids can safely walk to school or take their bikes. The White Rock Trail location does not provide that for kids living south of the school. If kids can walk there will be less traffic on the roads.

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Not use White Rock Trail as new boundary. Crowding issues are coming from Walnut Hill Area, so make the new cutoff an East-West line up by Walnut Hill, not a North South line down White Rock Trail.				
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Space for students and families to gather safely	Safety	Walkability		
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		traffic flow/not on heavy traffic street	located within the neighborhood so families are encouraged to use playground/fields	walkability	location that is supported by the neighborhood	
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		safety and security	traffic flow			
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		That it gets built quickly				
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety and Security	Traffic Flow	Walkability	Onsite Greenspace (for a Garden, etc.)	
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Cost of construction	Walkable	Safe ingress and egress	Maintain traffic volumes on neighborhood streets	
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		No increase in taxes	No additional traffic on White Rock Trail	Walkability to school	Within the current WRE area	Consider splitting into K-3 and 4-6 grade schools.
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety	Traffic problems	Walkability	Keeping the integrity of the community	Not on a busy street, not make streets through the neighborhood more dangerous and traffic heavier.
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Location - inside White Rock Valley Neighborhood like WRE	Walkability and safety surrounding such	Amble size of building and outdoor space to accommodate growth		
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.						
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.						
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Accessibility by foot to students.	Not on a main road but rather on a neighborhood road.	Outdoor space available.	Proper distance from current WRE to be practical for population distribution of students.	
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Keep community intact and do not build another school	Equitable demographic and wealth division	Safety and walkability	Green space	We wish to emphasize that we do not think we should split the attendance zone.
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		traffic flow	walkability			
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		No School at White Rock Trail	All of these criteria are mandatory.			Please understand that a phase 2 decision for Lake Highlands may contradict a decision for phase 1 (WRE only). Be careful. While a very large WRE may assuage fears in the short-term, it is not a long-term solution for all of Lake Highlands, where many of the schools are bursting at the seams as well.
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		no new school within the WRE attendance zone	no new school within the WRE attendance zone	no new school within the WRE attendance zone	no new school within the WRE attendance zone	Thank you for looking for a long term solution. However, we definitely need a short term solution that accommodates all of our neighborhood kids at our neighborhood school. Overflow is not the only option. Lakewood Elementary has been able to do this; we should be able to as well.
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		traffic flow	safety	walkability		Please, not at the corners of White Rock Tr. and Walnut Hill. The current traffic there is already more than that intersection can handle.
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.						
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety for kids and parents walking to school Security features		Full transparency, listening conferences		Thank you for all of your hard work. This isn't easy work.
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Don't want to build a new school or rezoning of the neighborhood	Don't want to build a new school or rezoning of the neighborhood	Don't want to build a new school or rezoning of the neighborhood	Don't want to build a new school or rezoning of the neighborhood	Don't want to build a new school or rezoning of the neighborhood
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		No new school at White Rock Trail (bad location)	Safety and security	Traffic Flow		I hope RISD is not using this survey to try and gain support for a new school at White Rock have sidewalks available) Trail.
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Walkability	Safety	Traffic Flow		
Yes	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		NO school on WRT

This option may require expansion of common areas such as cafeteria and the library.		Walkability	Traffic flow	Security for the school	Location away from apartments and commercial buildings	Is doing a 5-6th campus somewhere not an option?
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Availability and close proximity to WRE residents	Talented teachers educating the children	Safety	Traffic flow	
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.	I didn't select "none" but I do have something to say. I bought my home near WRE (22 years ago)... specifically because the school is well-loved and I knew it would be a good investment, because of WRE's history. I now have grandchildren in Tulsa...none at WRE. Personally, this situation with the school being in turmoil has been terrible timing as my house is for sale. I beg you to please make a decision and stick to it. I know you're seeking solution, but if you have not noticed, there's an abundance of houses for sale in our area, and it's because of this ongoing confusion. Please...decide so the whole community can move forward. I'd like to add...the solution to dice up the neighborhood and only let children who are already in the school, and their siblings be admitted... is a terrible solution. That means anyone new in the neighborhood will be shipping their kids off to a far away school...even though WRE could be right across the street! Seriously please find a sensible solution SOON (Add on to WRE seems best)...and stand by whatever that solution is and stop this confusion. It's affecting everyone. Thank you.	Walkability - safety	traffic flow			Yes....for those of us that do not have children in the school, and wishing to sell our homes, it will be enormously beneficial for this decision to be made swiftly and BOUNDRIES drawn, so those wishing to move into our community can choose their location. Please end this state of flux.
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		No school at WRT	Safety and security	Traffic flow	Walkability	No school at WRT

RISD VALIDATED SURVEY RESPONSES

Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Traffic Flow	Safety & Security	Walkability		
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		safety	balance of homeowners/multi-family	traffic flow		
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Adaquate space	Ease of traffic	Walkability	Proportional split between homes and apartments	are you even considering splitting the grades?
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Walkability	Safety and security	Traffic flow		Less disruption keeping all students at one campus. Put in portables until construction is complete. Families that live close to WRE and can walk to school should not have to transport their children to another campus...period!!!
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Traffic flow	Walkability			
Yes	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Boundaries that make sense so kids can continue to walk to school	An appropriate sized school. We do not need a huge school to accommodate a small overcrowding problem.	Safety and security	Green space	I believe we have two issues: overcrowding at WRE and overcrowding (or soon to be overcrowding) at the JR High. I believe adding on to WRE fixes the first problem, as does a new school. I am adamantly against the 5/6 center because there is a huge maturity difference between 5/6 and 7/8. Studies show keeping kids in primary school through 8th grade is best for students. Since we don't have a k-8 model in Richardson, we should try and keep the k-6 model if at all possible. I do believe if we add on to WRE it will be relatively inexpensive and we could then use some of the \$\$ originally planned for a new school toward adding onto the JR. High in the future. Please do not go with the 5/6 model. Many are being bullied toward voting for that 5/6 model even though they don't want it. Thank you!
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.						I think building a new school is ridiculous. Please add on to the existing building. There is nothing wrong with adding a second story!!!!
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Traffic Flow	safety and security	walkability		
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Walking distance	Kids' safety when walking	Clear speed signs, don't block alleys	Set up drive paths for dropoffs/pickups	
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.						I think building a second elementary school in the WRE attendance zone is a misuse of the district's funds as it does not address the overcrowding throughout Lake Highlands.
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Walkability to school	Traffic flow	Outdoor space for students	Safety	
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		attendance zone boundaries	safety and traffic concerns	walkability		
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		walkability to school	traffic flow	parking	safety and security	If RISD builds a new school (not my first choice) all the priorities listed above need to be met. RISD needs to find a way for the 2017 incoming K class to attend WRE. Overflowing the vast majority of the first borns is a horrible option. Need to find a way for more portables until the long term solution is implemented.
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		No School at White Rock Trail	It must be safe	It must be walkable	Traffic cannot be a problem.	I think question number 8 leads to survey bias because it is the only follow up question to the 3 solutions presented.
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Preserve integrity of WRV neighborhood	Safety/Security	Walkability	Traffic Flow	1. Kudos on decision to ditch plan to build a school at WRT and WH. Awful location. 2. Expand WRE and reallocate when new capacity is reached. Do not build a new school in the current attendance zone.
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Any place where there is space to build	Safety and security	Walkability	Traffic flow	I think options to build within the zone are limited. Other thoughts are to put in where that little playground is on white rock trail and put that park towards walnut hill. Or to buy out that one story Skilled nursing facility. Other options are 2 story WRE. Personally I moved here for the schools and have paid the higher taxes knowing my current and future kids would benefit from a good school. I would be ticked if we got farmed out to another elementary school since there are no good options on the southside of Lanshire and I would expect a significant tax break if that were to be the plan.

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		walkability	traffic flow			
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Traffic flow	Safety of children			No
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.						I have to say I am shocked we are doing this survey without any information on the solutions provided in the survey. I didn't do it. I'm also shocked we're still in this situation. This is ruining an amazing community and putting extra long-term and unnecessary stress on families. Please figure this out soon.
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.						
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.	I believe adding on to be the most feasible option, but I would also support moving 5 and/or 6 grades to LHJH across our feeder pattern.	Parity between the two boundaries with respect to racial and socioeconomic diversity as well as SF/MF make up.	Student safety	Walkability	Sufficient green/play space	We want an expedient solution as children who are our children's ages (5 and 3) are the most adversely affected by the growing problem. We believe adding on to the school is the most feasible option at this time.
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Equitable rezoning	Rezoning to create a successful school	Safety of students on campus	Traffic flow (safety for students and others)	No school at White Rock Trail site.
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Walkability	Safety	Traffic flow		
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Walk ability	Traffic flow			
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		I do not want a new K-6 in the current attendance zone	I do not want a new K-6 in the current attendance zone	I do not want a new K-6 in the current attendance zone	I do not want a new K-6 in the current attendance zone	I do not want a new K-6 in the current attendance zone
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Walkability	Safety	Traffic flow		Re-draw boundaries of homes would help
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.						
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety and security	Traffic flow			When people move into this area they stay. Our kids have gone to WRE and 1 graduated and another will graduate in 3 years. I grew up here and attended WRE. Though new families have been moving in, they will stay as I have. Another school would not be needed as enrollment will slow down.
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.	I attended an elementary school that was 3 stories plus a basement. Perhaps in a few years there will not be the necessity for more space. Besides going up & down stairs would be good exercise for the students LOL!!!!!!					
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		No school at WRT please	Walkability plus connectedness to the neighborhood			Thank you!
Yes	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Do not build a new school in current attendance zone	Do not build a new school in current attendance zone	Do not build a new school in current attendance zone	Do not build a new school in current attendance zone	Add portables at WRE to stem the tide until Stantec comes back with strategic solutions for ALL of LH overcrowding. I understand portables can be a capital cost, but if you LEASE them, it would be a temporary opex hit rather than capex and would be viewed as a wise investment by the constituents of RISD.
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.						

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.	A mega school is the lesser of all the evils, but NOT ideal.	WALKABILTIY	SAFETY and SECURTIY	TRAFFIC FLOW		We do not want another school in the WRE zone. To have 2 schools in such a close proximity is not smart money wise or good for our community. We have and will have overcrowding in the junior high and high school when this flux of kids starts within the next 1-2 years. We need a feasible long term plan not a quick fix.To list the priorities above are ridiculous, those are all top priorities for any school. The corner of WH and WRT is unsafe and a traffic nightmare. We have wasted so much time and money...we needed these answers and an adequate plan 3 years ago. A good survey would give better notions than it gave us.
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		safty	walkability	traffic flow		Don't build a new school
Yes		Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.						
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety and Security	Green space	walkability	traffic flow	It just seems that expanding WRE makes the most sense fiscally and also to keep the school in tact for its current enrollment. In future years, it is likely the enrollment at WRE will go down due to kids growing up and moving to middle school. A good solution will be some construction expansion at WRE for common areas and also portable classrooms as needed.
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety and security	Keep current WRE boundary lines	High tech-high touch environment		We would be open to a Pre-K/Kindergarten center for all area children to attend, drawing from all attendance zones. This would free up space and classrooms at WRE and other area elementary schools for 1-6 grade students, would allow students from 1-6 grade to remain in their current schools with their teachers, siblings and friends, provide a more nurturing and beneficial environment for students from multi-family homes since they would be in class together with students from single family homes at a critical time in their development, and maintain current boundary lines.
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.						
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.	Adding to White Rock Elementary makes the most sense. Staggering drop off times and/or school times to address traffic flow concerns could alleviate congestion concerns. We (and many others) bought a home in this neighborhood to attend WRE. Going to another school is not a desirable option, and may lead to a mass flight from the neighborhood.	Quality of teachers, classroom and staff commensurate with WRE	Safety/Traffic/Congestion	Location. We can currently walk our children to WRE.		Expand the current site. Add additional levels, etc. As someone who does real estate development for a living, the course of action is clear.
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.	I think it would be GREAT if they could build UP at WRE. I don't understand why everything is one level? Make zero sense. But if that is not a solution I believe a new 5-6 grade by the Junior High is the answer. Not another elementary in the WRE zone.	safety	walkability	traffic flow	security	DO NOT PUT A SCHOOL AT WRT/WALNUT HILL!!! WORST Idea I have ever heard!
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Not an overflow school	Similar demographic of single fam homes as WRE	Neighborhood style school	Technologically advanced	Safety and security should be assumed.
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety and security	Adequate property space to build new school	Reasonable construction cost with taxpayer funds	Traffic flow	We moved to this neighborhood specifically for my children to attend White Rock Elementary. We enjoy the close proximity of our home to the school, short walking distance.
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety	Traffic flow	Not by the DART line	Not an overflow school	RISD continues to not listen to the community. Build a 5-6 grade center and start alleviating overcrowding now, as this problem will exist beyond elementary school years.
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Walkability	Traffic flow	Appropriately sized site	Safety and security	
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety and security	traffic flow			How the costs of the new school will be funded? will property taxes go up as a result of a new school? Also, concerned about all zoning and the diversity %'s -the apartment kids should be split among WRE and a new school if one has to be built.
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety	Walkability	Security	Traffic flow	I want to remain in WRE
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety and security	Traffic flow	Adequate space including playground		
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Do not build a new elementary school	Do not build a new elementary school	Do not build a new elementary school	Do not build a new elementary school	Follow the same Stantec model used in University Park/Highland Park to increase and improve the existing school footprint. This isn't brain surgery. Don't over-think the problem.

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.						
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Maintenance of attendance demographics similar to WRE	Within same location as homes in neighborhood			
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.	Our preference would be as follows: 1. Create a new 4-6 or 5/6 grade school within WRE attendance zone and keep WRE a K-4 school 2. Add on to WRE	Equal and fair division of attendance zone (equal numbers of single-family homeowners and multi-family apartment residents at each school)	Equal amounts of students, setting up both schools to perform at ideal capacity	Walkability	Safety and security	We would like a new 5th/6th grade school within WRE attendance zone to also be considered, leaving WRE a K-4. I personally grew up in Highland Park where I attended K-4 at University Park Elementary and then went on to the 5th/6th campus at McCullough Middle School - this model is proven very successful.
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Maximize current RISD investment by using WRT location	Minimize impact to homeowners by keeping current district lines	Walkability	Balance of student population	
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Even split of single family homes between the two schools	Balanced attendance at each school (equal number of students)	safety and security	Sufficient green space	
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety	Even distribution of home owners/neighborhood attendance			
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.						I don't understand why I was directed to this. I did not select another school in WRE attendance. ANOTHER SCHOOL IN WRE DOES NOT HELP THE LH OVERCROWDING ISSUE. THE NEIGHBORHOOD AS A MAJORITY HAS SAID NO. Please stop trying to redirect us to your chosen option. Please listen and respect what those of us in the neighborhood and also with children in the school think of an additional school. An additional school within WRE is a short term answer with detrimental long term effects. We ask you to please listen to those who would be effected long term (I am not talking about home value, I am talking about the safety and security of our children - this should also be your #1 concern - additional traffic which our neighborhood cannot support, two schools that will be empty as our neighbor children age out, really too many reasons to list and I know we are EXHAUSTED of doing so. This is supposed to be a new season for RISD leadership. Please show us that. We want to support you and be proud of our district, but each time you bring up a new school within WRE, you show that you are not listening and it is hard to support a district who does not listen to those who serve it. Please add on to WRE or redraw boundaries in a LOGICAL manner that would be in the best interest of the neighborhoods and would strengthen some
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Traffic Flow				
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		equal demographics at both schools	traffic flow	walkability	safety	If there is a new school, the main concern is making sure the current kids per grade are split up evenly. In the previous split, there would have been very few 2nd grade boys (all Caucasian) and minimal girls at the new school. These kids felt they did something wrong to be the only few kids being rezoned. Also, parent involvement needs to be taken into consideration. Single family homes sometimes have more time to give to PTA and schools. There needs to be the same demographics at both schools. Our family is in strong support of a K-4 and 5-6 grade center. Money needs to go to the Jr High as well. As parents of both older and younger kids at WRE, we see the value in a 5-6 center. It's proven to be successful in multiple ISDs
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety and Security	traffic flow	walkability		no
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		safety	walkability	fair balance of the rezoning		
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		ensure boundaries promote neighborhood school with homes closest to new school zoned to school	adequate safe green space for community feel	safety and security with access		You will never make everyone happy. Please focus on stability for the young children and doing right by the kids. Please, please plan appropriately for junior high and acknowledge that stated capacities need to account for a teacher's lounge, pull-out rooms, and special education. We do believe that putting 5th & 6th grade on Junior High in separate facilities is the best solution.
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.						I have lived in the area for 55 years, & sent 4 kids through White Rock. It would be STUPID to build a new school for 100 new kids, There's ample space.
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Suitable for equitable boundary lines	Neighborhood school location (not commuter school)	Student safety		

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		safety	socio economic balance	traffic flow		
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Traffic flow	Safety	Walkability		Would prefer a 5-6th grade complex be built at WRE - there is plenty of space in the NW corner without compromising play space and keeps the children together while allowing a stepping stone for the older children prior to junior high.
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.						
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		No school at White Rock Trail	Retain current classes together	Safety and security, including traffic ingress/egress	Community/neighborhood feeling	The past year has been a challenging one for many students at WRE with the deaths of dear friends/classmates. Others will eloquently discuss the other important considerations to address overcrowding, but I don't want to miss the opportunity to point out the incredible bond that these children have developed. Please do not take this away from them. Any solution should take into consideration the ability to keep these classes together. These kids and staff are uniquely connected. Thank you -
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.						no need to build another school. It will all work itself out with adding on to WRE.
Yes	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety	Security	Traffic Flow	Walkability	Our preference is to add on to the current white rock school. In 2+ years, those children will all move on to the Jr. High and High School causing a capacity problem there. We prefer to do minimal additions to WRE and then use the remaining funds to address the capacity issues that are going to be coming to the upper schools due to the influx of so many children. We believe that the WRE capacity issue is a temporary one just as there weren't enough kids to fill the school just 10 years ago. The capacity problems come in waves over the years. Another option I didn't see was the creation of a Magnet school, which many thought was a great idea to address the issues. However, if the attendance boundaries are redrawn, please ensure the amount of single family households with children is equal to WRE to ensure parent involvement to sustain a new school or to better improve another school. The previous boundary proposal was NOT equally divided and therefore fewer neighborhood parents would be involved. In order to sustain parent support for a school, there must be enough household parents available to volunteer that are long term vested in the neighborhood. Thank you for your consideration to this critical decision.
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety	Walk-ability to school	Traffic Flow	Total Number of Students	re-zoning, re-zone the area north of Walnut Hill
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		WALKABILITY	TRAFFIC FLOW	SAFETY	GEOGRAPHICAL	WRE is a great walk to school campus. Even with increased number of students, AM Arrival still has relatively same number of cars as several years ago as best I count from the vehicles dropping in our circle drive thru. Traffic Dads do not see the quantity as unmanageable in the mornings directly in front of our school.
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.	It would be wise to look into the use of temporary expansion (i.e. portables) so when enrollment goes down there is the ability to remove the extra classrooms.	No school at WRT	Safety	Large outdoor space for children to run and play. Enough room for soccer, baseball and football practice.	Strong parent involvement	The reason families buy homes in this neighborhood is because of the school's tight knit community and family involvement. The solution must keep that in order to be successful. Otherwise, it will not have support and those same families will find other places to educate their kids. That is why expansion of the current WRE seems to be the best solution in my opinion.
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		long-term study on viability - this bubble will pass	cost	traffic		
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Walkability	Safety and security	Away from main thoroughfares		
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Walkability	safety	Community	Traffic	I believe the single school that is expanded is the best option. Reason is the sense of community this school has with all people that live in the neighborhood. My children and many (maybe most) of my current neighbors have gone to WRE and the neighborhood has a special bond with the school. This is because of the work and appreciation we have put into it. Many of the newer residents feel that community that was created over the years and carried it forward. I think this is a special community and dividing it with a new school could detract from it. If a new school is to be built you must determine how you will divide the community and make it a great thing for that new one.
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		A site that would result in fairly drawn boundaries, with two balanced and comparable schools (i.e., the opposite of the poorly drawn White Rock Trail boundary)				If RISD does not employ a solution that would maintain the existing WRE boundaries (such as simply adding onto WRE), we are very concerned that RISD is going to employ a result (1) that will unfairly favor only the White Rock Valley neighborhood over the other neighborhoods that have been a part of the White Rock Elementary community for decades, and that have helped make it the successful school it is today, and (2) that will also unfairly place the impossible burden of correcting a severely challenged school such as Northlake Elementary on a small, insignificant number of homeowners, without a wholesale redrawing of the Northlake Elementary boundary that would provide it with the right level of engagement from an appropriate number of single family homeowners to allow the school to succeed.

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety	Central to the area	Traffic	Cost effective	
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		location	safety	traffic flow		I wish we could have "ranked" our preferences for handling the overflow. My first preference would be to build onto WRE. But if we have to build a new school, definitely do NOT re-draw attendance boundaries. My second choice would be to have a 5th-6th grade center. My third choice would be to have a K-3rd at the old WRE and the new school would be 4th-6th grade. However, if a new elementary school is built, the level of household economics should be evenly distributed between the new school and the old WRE; there should be an equitable balance of homeowners and apartment dwellers. Attendance boundaries should not be impacted by what HOA a home is currently located - i.e. if attendance boundaries are re-drawn, it is OK to split homes out of a current HOA. The HOAs in this area are "optional", non-binding entities.
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		No school at White Rock Trail	Traffic Flow	Safety	Parking Capacity (site + street)	No school at White Rock Trail
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		No new K-6 school in White Rock Elementary attendance zone	Safety and security	Traffic flow	Greenspace	If a new school gets built in WRE zone, I would only consider supporting 5-6, 7-8 model restricting WRE to K-4 and addressing LHJH overcrowding issue. I do not support new K-6 in WRE attendance zone, period. I would rather go private.
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		safety	security	traffic	walkable	
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety	Traffic flow	Security		
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Location	safety and security	walkability	traffic flow	
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Proximity	Taxes			
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety and security	Walkability	Large outdoor play areas	Traffic flow	
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Student safety	Security	Traffic	Walkability	My oldest will attend kinder in 2018. If WRE is not able to accommodate all of the 2018 kinder students, I would prefer all of kinder to be overflowed to LHE rather than just a small number excluded
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Do not divide the neighborhood. Do not build a 2nd unnecessary school. Do not build a school on White Rock Trail.	Do not divide the neighborhood. Do not build a 2nd unnecessary school. Do not build a school on White Rock Trail.	Do not divide the neighborhood. Do not build a 2nd unnecessary school. Do not build a school on White Rock Trail.	Do not divide the neighborhood. Do not build a 2nd unnecessary school. Do not build a school on White Rock Trail.	This survey should have been conducted AFTER you all educated the neighborhood of the pros and cons of each option. As it stands, the results you all collect are from mostly uninformed residents. In addition, the number of residents that actually received this survey is very questionable. My household did not receive anything in the mail nor anything via email. Luckily I am part of many online groups and received the link via those forums. Many others in our neighborhood will not be so lucky which means they will not have a voice. Do not divide our neighborhood. Expand WRE in a thoughtful way that will allow this population bubble to pass while not dividing the neighborhood. The WRE population has exceeded 1000 students in the past and somehow survived. It can be done again. Building a second school will create many more issues in the future if/when populations decrease than will an expansion of WRE. Expansion of WRE is the fiscally responsible option that can be executed the fastest. As I recall from last year's discussions, if the decision was made to expand WRE in July, the doors could be open 12 months later.
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Dual immersion education (why is this not an option at RISD?? There is a reason everyone wants to go to Lakewood!)	Not located in busy intersection, must allow flow traffic	Music rooms, computer rooms, art rooms, recess space		This overcrowding is going to go to LHJH and LHHS. What is RISD board prepared to do with that??
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Located within the current attendance zone	Not redrawing/changing attendance zone			
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Lot size - sufficient green space	Accessible on at least 3 sides	Walkability	Not overbuilt	

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Traffic flow	Safety	Walkability		You are looking at current and near term attendance levels. What about 7 to 10 years from now when today's elementary students move to junior high. Will WR have vacant classrooms?
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Base boundaries on current WRE attendance zone (don't add more areas)RISD	Location			RISD must ensure siblings attend the same school

No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Not at White Rock Trail location	Walkability	Traffic Flow	State of the Art design and classrooms	Do not build a school at White Rock Trail site.
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.						
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Assure the New School and White Rock Elem. is to Accommodate only students within the current White Rock Elementary Attendance Zone.	Same as 1st Priority	Safety and Security	Traffic Flow	Expanding White Rock Elementary (WRE) to accommodate only students within the current WRE attendance zone is likely the least costly option, most flexible for student accommodation and most acceptable to those living within the current attendance zone. Any change of the current WRE attendance zone is going to be met with dramatic opposition by families residing within the current WRE attendance zone.
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		No School at White Rock Trail - Safety	No School at White Rock Trail - Traffic	No School at White Rock Trail - Walkability	No School at White Rock Trail - Security	RISD needs to stop wasting time and focus on our one school and address attendance growth and capacity issues across Lake Highlands.
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		preservation of neighborhood integrity and residential values and desirability, which I think is virtually impossible if a new K-6 school is built within the current attendance zone	traffic flow, including retention of the current 2 lane width of White Rock Trail			I am very concerned about spending large sums of taxpayer dollars building facilities and structures (and additional bureaucracy) that will NOT be needed in ten years when the elementary school population is declining. Thirty years ago, WRE was in danger of being closed due to low student population as a result of neighborhood aging. It will happen again.
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.						This is no place to build new school
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety and security	Walkability	Traffic Flow	Total enrollment 600	
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety and security	Sufficient outdoor space	Traffic flow		
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.						I am more concerned about the decision to rezone, either to a new school or existing school. Some of the proposals (not the official RISD proposal but other proposals suggested by people in the neighborhood) split the neighborhood in ways that were inequitable. People seemed more interested in saving themselves than in what made the most sense. Some of these proposals had my kids walking farther to school than they do currently and across major streets, while houses closer remained within the WRE boundary. Also, with the way that the boundaries were created, there was a major difference in the percentage of economically disadvantaged students in each school. I would hope that if there were to be a split it would be more equitable in this area. Assuming the size of the school cannot be increased and a new school or rezoning is the only option, the criteria used to draw attendance boundaries must be transparent and rational. We should also be able to apply to all elementary magnet schools, with an additional magnet added at Northlake, possibly a dual language program.
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Walkability

No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		traffic flow	safety and security	walkability		Why is a 5/6 school on LHJH campus not doable? Does it not provide enough spaces to keep us from bursting at the seams with additional growth over the next few years?
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety	Traffic	Proximity		
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Walkability	Safety and Security	Traffic Flow		It is likely that the long term solution cannot be implemented by the 2017-2018 school year. My wife and I attended an elementary school in a very similar situation; small original footprint, blue ribbon education, high influx of young families (1990-1995 Laurel Mountain Elementary in Round Rock ISD). The district decided to expand the campus which took a few years. My wife and I spent 4 of our 5 years in elementary school in portables. Looking back, we wouldn't have had it any different. We received an excellent education and all of our neighborhood friends went to the same school. Honestly, we always thought it was fun getting to have class in portables. We hope RISD's solution keeps the neighborhood together. We would be highly supportive of reducing green space with portables at WRE while a long term solution is finalized.
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.						There is no property available to build a school in this attendance area. Plus Lake Highlands Junior High needs to be added on to. They are overcrowded.
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Traffic flow	Walkability			
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		No School at White Rock Trail				
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety and security	traffic flow	walkability		I do not believe investing money into a new school facility is the most feasible solution, for cyclical problem. Is RISD thinking ahead to the needs of the junior highs?
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety and security	Traffic flow			While not my first choice (which is to just build onto WRE to accommodate current and future growth), I think building a 5th and 6th grade school would also be a good option (as opposed to entirely new K-6 school). Again, our family's first choice would be adding into WRE. Thanks for considering input from the community.
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		safety	traffic flow

RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety and security	walkability	traffic flow		
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety	Large plot of land	Security - we don't live in the safest area of town	Walkability	I am more concerned about money being used to address future growth at the junior high and high school. I feel like everyone would agree those are more of a priority for the money's use versus building a new K-6. By adding onto WRE you only need to accommodate approximately 100 more students which is 5-7 more classrooms. I think if it was spelled out that way, then people would buy in. Plus, that is a less expensive option than what else has been presented. In the end, no one wants to be broken up so why do it. And 5/6 center should NOT be an option.
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		safety and security	location-walkability/traffic			
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Walkability	Not on a Main Street	Have parking	Play space	
No	No	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Not built at WRT	Safety and security	Traffic flow	Walkability	Do not re-zone the elementary. Home owners who bought in Lake Highlands North west of Fieldcrest do not want this.
Yes	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety	No imminent domain needed	Balanced boundaries of multi vs single family in feeder zone	Ease of traffic flow for drop off/pick up	That the solution has a balanced impact on those that feed to WRE. Any change to WRE should not be to just make it more affluent. Other schools, or families, in Lake Highlands should not bear the burden of white rock valley keeping its prestige and affluence. The student population at WRE needs to be more diverse on socio-economic and ethnic measures.
No	Yes	Add on to WRE	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety & security	Walkability	Traffic		N/a
No		Add on to WRE	None of the Above	* Accommodate growth at all area RISD elementary schools; 2nd choice would be to add on to WRE					No new school in WRE attendance zone
No	No	Add on to WRE	None of the Above	1. NO SCHOOL OF ANY KIND SHOULD BE BUILT AT WRT/WALNUT HILL!...that is [worse than] a terrible site choice for a school, particularly elementary! (and by the way, I'm not just a nutty "nay-sayer" neighbor, I'm actually a professional city planner with 30-years' experience in the field...why our School Board thought that site was good for a school, especially elementary(?), befuddles me to no end....) 2. NO DIVISION/REZONING OF OUR NEIGHBORHOOD!!!! (there are other solutions that won't divide our neighborhood some weird/harmful way...please listen to us!, we are not being anti-anything, we just don't want our neighborhood divided as it will cause permanent harm to its(our) property values, owner-longevity/stability, "sense of community" that we all love and cherish, and neighborly cohesiveness. 3. Adding on to, meaning complete "reinvention" of, our neighborhood's school (WRE) is in my opinion the best choice...there is PLENTY of land there (10 acres) to do so but some temporary measures will obviously be needed to accommodate the current school population while "big changes" occur...too bad the District demolished both of the office buildings on the [terrible school location] WRT site...one, or both, of those might have served wonderfully as a temporary school campus while our WRE was being rebuilt...those buildings were in pretty decent shape during the 12 years our company leased our offices there, it shocks me still that the District knocked down two usable buildings that could have served a good "temporary school solution" purpose.....(ugh!!!)..... 4. The idea of shifting 5-6th grades to a new facility/campus at the LHJH site (all LH schools, not just WRE) certainly does have merit (and Dr. Stone obviously has experience with that model), and needs to be more closely considered...I can certainly see that with 6th graders, not sure about 5th graders but I defer to those who know more than I do about the maturation process of kiddos in those age groups regarding that "move up" step... Regardless, division/rezoning of our core WRE neighborhood (between NWHwy, Audelia, Walnut Hill, Skillman) needs to be taken OFF the table completely no matter what long-term solution is eventually decided upon... 5. I've heard rumors about a possible land-swap between RISD and the City of Dallas...the [really illogical] WRT site in exchange for Dallas' former National Guard Army site on	NO SCHOOL AT THE WRT SITE. Period.	NO DIVISION/REZONING OF OUR WRE ATTENDANCE ZONE. Period.	EXPAND/"REINVENT" WRE RATHER THAN A NEW SCHOOL IN OUR ZONE. Need to much more thoroughly explore making WRE bigger/better, rather than dividing our neighborhood!	Possible shift of 5-6th grades to LHJH site (not the best option, but slightly better than dividing our neighborhood I guess...)	Please see comments/input under Question #7 above. And many thanks, RISD, for finally giving our neighborhood a Voice...we really do appreciate it!, and look forward to finding an appropriate solution that will keep our neighborhood, and our beloved School District, "GREAT"!!

Regardless, division/rezoning of our core WRE neighborhood (between NWHwy, Walnut Hill, Skiffers) needs to be taken OFF the table completely. To be ok with adding on to WRE to accommodate the growth, or adding a new school within the current attendance zone. I don't really have a preference between the two. My comment is that the location needs to be thoroughly researched and planned out if a new school is added. My other comment is that rezoning the current school attendance zone is a bad idea because so many people bought their house with the intention of their kids going to WRE, and prices have risen because of it. Changing that not only angers people but also diminishes their home value, which definitely needs to be a consideration. If I had to choose, I would add on to WRE	NO SCHOOL AT THE WRT SITE. Period.	EXPAND/"REINVENT" WRE RATHER THAN A NEW SCHOOL IN OUR ZONE. Need to much more thoroughly explore making WRE bigger/better, rather than dividing our neighborhood!	Possible shift of 5-6th grades to LHJH site (not the best option, but slightly better than dividing our neighborhood I guess...)	Please see comments/input under Question #7 above. And many thanks, RISD, for finally giving our neighborhood a Voice...we really do appreciate it!, and look forward to finding an appropriate solution that will keep our neighborhood, and our beloved School District, "GREAT"!!	
No	No	Add on to WRE	None of the Above		Safety and security	walkability	logical and equitable rezoning of new school	traffic flow	I do think a new school would be beneficial, but there is a lot more that needs to be considered. Seems like the last attempt at a school at White Rock Trail and Walnut Hill wasn't researched and planned with neighborhood input.
Yes	Yes	Add on to WRE	None of the Above		Walk	Safety	Security		
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Safety and security (not on major street or intersection)	Logical site in neighboring area, not 3 blocks away from WRE	Can create fair distribution of students from homes, apartments, etc		Thank you for taking community input. One of the biggest reasons I moved to this area was because WRE is ranked as such a good public school and I wanted my son to be a part of it. I'm sure many other parents feel the same way. But I also understand the need to solve the overcrowding issue.
No	No	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		diversity	saftey	traffic flow	population balance	Children benefit from exposure to other colors, cultures, and ideas....it makes them much better adults!
No	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.	We support a new school but not at the White Rock Trail location. We want our kids to attend a neighborhood school that is walkable and bikeable. We think Goforth Road is a suitable location for this development.	Walkability	Equal and fair redraw of current WRE attendance boundaries to create a comparable neighborhood / community school	Safety and security	Traffic flow	It is important to us that the boundaries for a new school preserve the neighborhood feel that exists at WRE. We want to see an equal and fair division of the current WRE attendance zone. We want a school that is walkable, bikeable, safe and well integrated into the community.
No	No	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		What's best for the students. Period. End of discussion!	Ease of balancing population between the 2 schools			We thought the WRT school was just fine; thank you for all your hard work and commitment to our neighborhood and the students.
No	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		No school at WRT	Walkability	Greenspace		Thank you RISD for listening! I grew up on the RISD and am looking forward to sending our kids through as well. I would love a school on the dallas city land on goforth and adlora. We trust that you'll make a great decision for our community's children.
No	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		safety and security	traffic flow	proximity to house		I prefer a new school in order to maintain a smaller neighborhood elementary school.
No	No	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		walkability	safety	no busing		
No	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		safety	traffic flow	green space	walkability	We are praying for y'all as you make this decision and want to thank you for serving our community despite the challenges involved in this highly emotional situation! We trust that you will seek wisdom and good counsel as you strive to do what is truly best for the children and families whom you have the power and position to impact greatly with this decision. Our children will not enter school until 2020, but we look forward to finding the best solution to this problem!
No	No	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Within the neighborhood	Safety	Walkability	Balanced enrollment number	We chose. It to send out kids to WRE be of the size of WRE and think fixing this problem is important and should have been addressed at least 4 years ago.

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		safety	walkability	traffic flow	budget	
Yes	No	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		safety and security	traffic flow	walkability		I think the focus on attendance, building a new school, creating a workable learning environment, etc. needs to not only address the elementary grades but LHJH and LHHS too. And quickly. The issues of overcrowding are seen at the elementary level now, but in 2-3 years the number of students attending LHJH and LHHS will absolutely overwhelm the current (aging!) structures, usability, passing in the halls, student safety, teacher:student ratios, etc. I believe it's extremely short sighted to focus just on the elementary schools, without that being a "phase 1" in a clear progressive plan for LHJH and LHHS over the next 3 years. For me, it's not a question of where should a new elementary go, or what happens if we move an attendance boundary ... it's "what will provide students with the best opportunity to learn, and the best environment to learn in?" If that means my WRE elem. student goes to a new school, then so be it. If that means a compound of portables while a school is being renovated, then so be it. I'll support whatever decision RISD makes, with a smile on my face and a positive attitude. But please make a decision quickly, communicate it, and stick to it. Thank you.
No	No	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Traffic flow	Walkable for most students	Appropriate scale to neighborhood		
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Green/playground space	A balanced rezoning that does not overconcentrate demographics at either school			I supported the prior plan for the new school to which my kids would have been zoned. I had concerns about the size of the spot as it related to outdoor play space, but the concept appeared to address it. Not ideal, but better than overcrowding. However, I thought the initial rezoning plan that left it half full and likely to serve as the primary overflow locations from other elementaries set it up for failure whereby many of my neighbors were talking about moving or choosing private school ala Northlake's zone. If RISD does divide the WRE zone to 2 schools, it should seek a relatively similar demographic, total attendance number, and overflow intake between the two schools. I was excited by the opportunity for a more diverse school, but at half capacity and such a small portion of the highly partipatory WRVN zoned there, RISD was foregoing tons of free volunteer parent hours and community support in how they drew it up. I would also support any endeavors to offer special programs such as language immersion that would entice families to "opt-in" to a new school. I think the walkability and safety concerns were overblown by parents afraid of change or scared to share their true reasons for opposing the change.
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Safety	Walkable	Small class sizes	Playspace	There's a barely used city of dallas parcel in our neighborhood that should be considered.
No	No	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Able to walk to school	Safe route to walk	Play area to accommodate recess		We don't have any kids who do or will attend a new school but it is vital that a new school be built to eliminate the current and future over crowding.
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.	I am in favor of a new school within the attendance zone in an area that MAKES SENSE taking into consideration traffic, accessibility and green space. I am not in favor of the previous WRT location.	safety and security	walkability	green space	traffic flow	
No	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Safety and Security	Neighborhood Feel	Walkable		
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Safety	Walkability	Traffic Flow		
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		walkability	safety	traffic flow		
No	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Safety and security	Walkability	Traffic flow		
No	No	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Safety	Traffic concerns-site should be accessible for students, staff and parents	Walkability-safe for children to be able to walk to and from school, in an area that has sidewalks	Location-not near a busy intersection and capable of handling school buses and necessary parking for staff, parents, and school events	A parking garage is not suitable for an elementary school. 900 hundred students in an elementary school seems an unreasonably high number. Such a number is not conducive to positive learning experiences. Ideally, more schools with fewer students is preferable to fewer schools with too many students.
No	No	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Safety and security	Classrooms with windows and casual sitting	Technology current	walkable	Either a new school within area or enlarge WRE. I am a grandmother with daughter and son in law also living in White Rock Valley with their 2 children.

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
No	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.	1) It seems like the most vocal people in our neighborhood were against building the school at WRT. Personally, I don't understand why that was such a horrible solution. I was completely for building a new school, and many of our friends who have preschool age children agree. However, none of us seemed to get involved in the big debate going on, which was probably a bad call on our end considering the outcome. Now we risk our children being overflowed to lower rated schools across town. We could have bought a house half the price and send to Northlake Elem. Schools affect our property values so when we think about eventually selling our home in the years to come, it's not going to be great that we couldn't send our child to the school 8 houses down the street from us. So really, this affects homeowners without kids too, but I'm not sure that really resonated with many of the older people in this area. You should know that not as many people were against building a new school as it may have seemed. You mostly heard the squeaky wheels. Also, you can't make everyone happy. It's best to make a decision and give people time to accept it. 2) One option not mentioned on this list would be to move 6th grade to the middle school. Wouldn't that free up a lot of space? Additionally, just from a maturity / puberty standpoint, having 6th graders attend a school with 5 year olds seems really odd to me (not to be coarse, but how do you currently handle 5 year olds using the same restroom as menstruating 6th grade girls?) 3) Since nobody liked the "location" of WRT, perhaps we could consider Flag Pole Hill? That seems like ample space for an elementary and no use of eminent domain. 4) If you end up redrawing attendance boundaries (let's say between Northlake Elm & White Rock Elm), you could switch the principal and teaching staff between the two schools. That may create the most value community wide and help to reduce the issues some parents					
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		walkable	less kids per classroom	safety		
No	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Safety	Security	Traffic flow		It's time to do something, enough talk, this is old news, past time for a solution
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.						
No	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		safety	walkability	enough land		We are new to the area, and I never really understood the controversy with the entire neighborhood over building the new school. I understood those who would have to move. However, space is limited in the city so no location is going to be perfect.
Yes	No	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.						
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Keep neighborhood feel at wre	Safety and security	Traffic flow		A decision needs to be made and it is impossible to make everyone happy so there should be no reason to let that be a goal. People complaining about property value loss are ridiculous when you think about what we have here. The schools win because the community is involved. It will be the same at another school also with a large influx of current wre people. Building onto the school will not be sustainable and it is already ridiculously overcrowded and too big. You shouldn't have to have kids eating so early and school events with the school bursting at the seams. Let's rip off the bandaid and redraw boundary lines keeping neighborhood feel preserved as much as possible
No	No	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		White Rock trail at Walnut Hill				The Trustees and the Administration have ALL children's best interest at heart. Parents generally only have there child's interest in mind.
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Safety (sidewalks)	Walkability	Green space for community and kids	Parking	I would like swift decisions to be made by the RISD Board, whom I voted for and trust. There is no way to please every homeowner as you know....please continue on the course you are on to do what is best for educating our children. As you know we have classes almost doubling up for specials now, technology lab time is limited, soon their education will be impacted due to overcrowding and that is not what our kids need. Thank you for your time and hours of service.
No	No	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Strategic design to provide adequate traffic flow	Sufficient green space for playgrounds & athletic fields			I encourage RISD to exercise caution in carving up the WRE boundaries so as to create 2 schools of very similar socioeconomic demographics. The best way to assure support for a second school from all existing families will be if parity is achieved from the start of a new campus.
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Safety and security	Demographic make up similar to WRE	Traffic flow		
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Walkability	Green space	Safety and security	Traffic flow	I am supportive of the previously chosen location (White Rock Trail and Walnut Hill)

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Larger attendance zone boundaries				I was supportive of the original plans for the new school. It just didn't appear that the boundary lines included enough children that live nearby. And the children in the one remaining section of multi-family housing for WRE would've been walking/driving right past a brand new school. That did not make sense to me. The new school attendance area should also include that pocket, and if the district needs to redraw lines including other apartments for WRE, there are some that are much closer on Walnut Hill and Audelia. Or just draw out the apartments for them entirely.
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Proximity to attendance zone	Security	Ample space for first class facilities and outdoor activities	Traffic	I think there is no choice that is going to please everyone or even a majority. A hard choice has to be made. Either build a new school or change attendance boundaries for all the surrounding schools. I think either is an acceptable and reasonable solution, IF redrawing boundaries could really solve the problem. Does it? A new school will impact only the attendance boundary of WRE, at least as proposed. Drawing new lines affects all schools in the area and will be more disruptive. That doesn't mean it's a wrong choice however. The choice between these 2 options should be determined by the projected growth in the district, not just WRE growth, or the feelings of the vocal activists in the neighborhood. I fear building onto WRE will leave a half empty school after the current crop of students matriculates. But I'd have to have more information about projected growth for ALL elementary schools to say this with confidence. This choice makes little sense without knowing that information. If this is just a bubble of WRE people then redraw lines, if it's more than just WRE then a new school may be necessary. Surely the district has these projections. So make a decision that is best for ALL of Lake Highlands based in the data, not just WRE, and hold on to your seat. I fear that the survey results will be dubious as there is a concerted effort by the community organizers to push people to answer "none of the above". I don't understand what is to be gained by this strategy, but that is what is being
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Safety & Security	Traffic Flow	Walkability		
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Traffic Flow	Amount of Land	Ability to help other over crowded schools		
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Safety	Walkability	Enough space for recess & school events		
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Safety	Walk ability			
No	No	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Traffic flow	Walk ability	Excellent playground	Safety and security	And energy efficient, school of the future. Multifunction for after school programs and community perhaps. Make it where people want, choose to attend.
Yes	No	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Safety	Racial balance	Walkability	Neighborhood kids	
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		walkability	safety	that this action be taking quickly and building started asap		
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		student teacher ratio	diversity	quality of education and leadership	walkability to school	The district has a big opportunity here with this wave of growth and needs to take this issue seriously with strong leadership. Everyone saw this coming except RISD. We are paying way too high of taxes for the administration to not act swiftly and wisely. If mismanage the people could leave as quickly as they came. Thank you!
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.	I like the idea to rezone but I'm under the assumption that all schools are at or near capacity.	It be built asap	We believe in a good education for all	I think wrt was a good solution	Stop listening to the people who are not affected immediately	I'm on board with wrt. I'm tired of a few people speaking for a few people. Public schools are not private schools. It's a responsibility of RISD to educate all fairly. My family fosters children and they have never been able to attend WRE with my own children. We have been overflowed to LHE and Wallace. I think Wallace is fantastic and wish more schools were run like them. It's a great example of single and multi family homes can work together to provide an education. As our foster children are leaving shortly, my husband and I are not putting our names back on the open homes list. One factor is I'm tired of having kids at two different elementary schools. Have you ever had to tell one set of kids, sorry, I can't make it to your winter party or thanksgiving activity because I physically can't be at 2 schools at the same time? Or take off work for 2 separate sky ranch trips? Or best yet, 2 science fair projects? Last thoughts, I don't think RISD show tier the incoming kindergarten classes. It's taking away from the urgency of the problem because certain people feel safe because of siblings. You should let everyone experience overflow. Lastly, my fellow neighbors are waiting to hear from their fearless neighbors for how they should respond to the survey. This comes from a direct message. Talk about compromising a survey. I'm all for gathering facts and making a decision but copying word for word and waiting for someone to tell me how to respond is

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
Yes	No	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.	I don't think adding on to WRE is a viable option due to it sitting in the middle of the neighborhood & its already too busy with our current overcrowding numbers. I also think in 10 years or so there could be a change & then you would have too much extra space. There doesn't appear to be another good spot for a School that would still be considered neighborhood & students could walk to it safely. Rezoning doesn't help if you still want a neighborhood school you can walk to. Even Northlake is too far for us to walk & that's the closest school. So, you are basically just deciding who in our current neighborhood school has to be overflowed. I'm not sure why the 5th & 6th grade center was not given more thought. It seems like the best option in my opinion. Keep the younger kids in walking distance give the older kids a stepping stone from elementary to junior high. In my opinion, elementary is not the biggest issue, it's the junior high & high school b/c all of these kids are going to be there soon & then you have one school & no room. It seems like there could be renovations at high school that might enable freshman back if needed. Then maybe junior high could be at freshman center & 5/6 center could be at junior high. I would love to see some pro active movement instead of reactive. My concern is that you will fix the elementary just in time for the junior high to be a complete disaster. Then fix that just in time for freshman center to be overcrowded & then fix that while the high school becomes an overcrowding disaster. Please don't allow the elementary issue to keep you					Question 8 is not a good question. Of course most people are going to put safety & security at the top of the list. Those are givens & should be your top priority for any school regardless. The problem is trying to have those & find land for a neighborhood school. Walkability & traffic flow are both super important. If you can't walk to it then I would not call it a neighborhood school.
No	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Walkability	Safety	Security	Traffic flow	I'm ok with building at WRT site.
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Walkability	Diversity balance	Zoning to ensure neighbors go to school with neighbors		We believe a school at the White Rock trail location is still the best solution and traffic and safety concerns could be creatively addressed. Adding on to White Rock will crush the small community feel of the school that it is struggling to maintain. Frankly, re zoning to existing schools is not something that I'd prefer for my property.
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Safety and security	Walkability	Traffic flow		I wish more than anything that RISD would quit asking for so much input from our community and just make a decision. I appreciate that the community is considered, but there are too many opinions in this neighborhood. The overcrowding at WRE is awful, and it is not the school it once was because of it. I will fully support any decision RISD makes.
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Safety	Walkability	Traffic flow		Do NOT allow a school to be any larger than WRE currently. A school this large(or bigger) suffers. Staff are not able to connect, students are not able to receive services that they are promised, disconnect between grade levels, not to mention the pressure on the administration at the school. As a former educator for RISD, I am asking for a new school, rezoning, whatever it takes to reduce the current enrollment a WRE. Thank you for all your hard work.
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		walkability	green space	safety		I actually liked the original site selected.
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		walkability - need crossing guards, good sidewalks	green space			We need a new school. Splitting the attendance zone is inevitable. Increased diversity will benefit all. We greatly value the experience we've had walking to school and getting to know our community that way. For this and all schools in RISD, I would expect crossing guards to be a priority.
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Safety & security	Walkability	Traffic		
No	No	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		traffic flow	walkability			My household was in favor of the first proposed site (not the Jakes spot - too much traffic). The plans for that school looked great and we liked the proposed location.
No	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Safety and Security	Class Size	Walkability	Green Space	
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.						
Yes	No	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Ease of access	Safety	Close proximity to houses		Wish the plans to build at the corner of White rock trail and Walnut Hill were happening.
No	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		attendance zone	saftey			

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
No	No	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		not splitting off apartment dwellers from home owners	traffic issues including walkability	space to expand the new school if needed	play space	RISD so far has done a good job maintaining educational standards in the face of more diverse student populations. I hope this continues.
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.						
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Walk ability	Safety	Traffic flow		
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.						
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.						
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Safety and security	Class sizes			
No	No	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Small school size	Traffic flow	Walkability		
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Safety	Close proximity to students' homes

No	No	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Same school size as WRE	Traffic flow	Walkability		Redrawing boundaries is controversial but may be the best alternative.

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
Yes	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.	I also believe that re-zoning families north of Walnut Hill to NLE would be a good solution that is geographically logical and will help elevate NLE.	Do what you would want for your own child.				I hope this is the last survey and a decision is made soon. Ready to move on. Thank you all for your work.
No	No	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.						
No	No	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Safety	Location			
No	Yes	Create new K-6	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Space for a building and appropriate play areas	Walking distance to home	Traffic flow		
No	Yes	Create new K-6	None of the Above	I would be supportive of another school that divides the current zone, but not at the corner of Walnut Hill and White Rock Trail. That location is too small and the traffic would be a disaster.	no school at wrt	safety/traffic (related)	community feel/neighborhood integration		
No	Yes	Create new K-6	None of the Above	Provided it is not located on the property at White Rock Trail and Walnut Hill, My first choice is an equal K-6 within the attendance zone. Otherwise I would choose to Not on White Rock Trail add on to the existing WRE.		Walkable	Adequate Green Space	Proportional split of SF & MF between schools	If a new school is built, it must be an equal school to the existing WRE. If that can't be accomplished, adding on is the only viable solution. But regardless of which direction this goes, the Board must start taking a broader more open view toward enrollment growth in Lake Highlands as a whole. Fixing WRE is only one part of what needs to be an integrated strategy towards addressing these issues. That means increased portables at schools that are currently overflowing into LHE and NLE, and a plan for either a third junior high (preferred) or increasing capacity at the existing two.
Yes	Yes	Create new K-6	None of the Above	Create a new elementary school in WRE zone but not the site on white rock trail	Walkability	Safety			
Yes	Yes	Create new K-6	None of the Above	Build a new school in a safe location (not at the White Rock Trail site) that could assist in alleviating overcrowding at both WRE and other Lake Highlands elementary schools. Additionally, a more complete plan of adding another elementary school to the Lake Highlands area would include potential changes to the boundaries of multiple Lake Highlands elementary zones.	Safety	Walkability	Security	Traffic flow	
Yes	Yes	Create new K-6	None of the Above	New k-6 school (possibly magnet) in the LHJH feeder area to address current and future overgrowth in ALL of our elementary schools, not just WRE. (requiring a rebalancing of attendance zones) or a 5/6 intermediate school adjacent to the LHJH to help alleviate overcrowding at all area schools.	Safety of walkability for students	Big enough land for single story school and decent natural greenspace	Traffic flow	Mixed demographic	WRE is too white. Rebalancing would be beneficial to the social development of the kids before LHJH.
No	Yes	Rebalance the current attendance zone	None of the Above	Re draw boundary lines to work out the over crowding at ALL k-6 schools in LH. It need be build a new school in the interior of the district to balance out all over crowding that we WILL experience. I do not personally think a new k-6 needs to be built if we do the following- Build two 5-6 centers at current JR campuses. These would remain separate from Jr highs, but on the same site. spend some money addressing the highschool campus quality/over crowding. The solution needs to be long term. what happens when these kids move on to the JR high in three -six years? lets work on solving that problem now!!!! not later	No new school at WRT	New school must address all of the elementary areas not just WRE	walkability	traffic flow	Please stop looking at this as a WRE only problem and start looking at it as a district wide problem that will need to be addressed at the JR and Highschool levels also
Yes	Yes	Rebalance the current attendance zone	None of the Above	I do believe LH needs additional elementary schools. However, RISD needs to be strategic in placement of these additional schools so that children can attend schools in their neighborhood that are safe, walkable, and have sufficient outdoor space. If a school meeting these criteria cannot be accomplished, the district MUST solve the problem with a broader scope of thought and not simply choose sub-par school placement. As well, I DO SUPPORT redrawing boundaries.	School sized to accommodate under 500 children	Walkability	Greenspace	Traffic	If you are going to present the school as being "for WRE" (not said explicitly, but implied), then you should accommodate WRE and not size the school so as to cast suspicion on long term motives of the district. I believe the neighborhood would get behind a smaller school buried in the area west of White Rock trail.
No	Yes	Rebalance the current attendance zone	None of the Above	Rezone WRE to remove homes North or Walnut Hill.	safety and security	walkability	neighborhood contiguous feel	traffic flow	
Yes	Yes	Rebalance the current attendance zone	None of the Above	I would choose rebalance if it would fully fix the problem now and in the projected future although it would depend on how the lines would be redrawn (priority set for not making kids attend schools where they cross busy streets to get there, i.e., walkability). My next option would depend on the extent of the issue after rebalancing. In conjunction with rebalancing, I would also support removing special programs, if any, that utilize classrooms at WRE. If the issue were still sizable and also as a first alternative, then I would want to consider isolating 6th grade, or 5th and 6th grade if needed, in another building.	Safety and security (although I think this one has to be #1 without saying)	Walkability--minimizing students that have to cross busy streets to get to school and wide sidewalks	Keeping the capacity small as an elementary should be (500ish kids)	Traffic flow for pickup/drop off and ample parking	My #1 prnorty/concern in general is keeping WRE's structure intact/not building on to WRE). It is way too large for an elementary school as is. I have great concerns with the amount of time my children have to eat lunch and the environment in which they currently eat. I also have concerns about the scheduling of lunch and recess times. Currently one of my children does not eat until 12:40, and his only recess is AFTER lunch. There are also no after-school activities available (which I have been told is due to the size of the school). I also want a new school to be placed in a way that will allow that school to be very successful and enhance RISD as a whole. If we can get all of the elementary schools in the LHJH boundaries to improve, that means a better JH (and high school) and higher property values and therefore more revenue which benefits the entire district. Families have concerns about LHJH, and making sure that a new school (if there is one) is a sought-after school is an important priority to me. Or if boundaries are redrawn, there should be attention to this point. If the currently-owned location is used, I would want the walkability of Walnut Hill in general improved by getting the sidewalks away from the street or at least putting up substantial barriers up between cars and walkers. The walkability of Walnut Hill needs to be improved regardless of whether a school is built there, in my opinion, but that isn't on RISD! Has RISD assessed the possibility of obtaining the property where there are community gardens and police car storage sites? It is around Goforth and Adlora Lane. Aside from the stables (which flood regularly) and Flag Pole Hill, there is not much land available. I am glad that RISD is reassessing the overcrowding in Lake Highlands. The limbo and inaction thus far has made this problem linger. Please do your due diligence then be swift and firm with implementing the solution. Also remember that you can't please all of the people all the time. The community does not agree on a solution so some people will be unhappy no.
No	Yes	Rebalance the current attendance zone	None of the Above	Shrink the current zone to just the core neighborhood. North of NW Highway, West of Audelia, South of Walnut Hill, and East of the forest area (East of the new shopping center). Redirect the areas annexed out to the schools closest to them (Northlake, etc.)	Safety and security	Walkability	Traffic Flow		If a new school were opened, then the new attendance zone would need to make sense. For example, we live on Spring Branch and back up to WRE. It would NOT make sense to rezone Spring Branch or even High Edge to another school given our proximity to WRE.

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		safety and security	traffic flow	walkability	large enough play area and room to grow	
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.	In addition to rezoning across all of Lake Highlands (not ONLY White Rock), eliminate the practice of allowing transfers. Overflows driven by the schools, if schools are truly at capacity, yes - do those. But parental request transfers should be disallowed. We will never get back to sane borders and attendance unless we take our medicine now.					
Yes	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		safety and security/great education	Have some friends there			I feel that over crowded schools are dangerous and we should be focused on making sure our kids are safe, getting a good education which mean classes not being over crowded where kids can't get the proper help, if anything happens there are not so many kids that you can't get them all out on time, They have space and time to eat lunch without having to shove their food down their throats or not finish lunch! we the parents make a big deal out of it because maybe some don't want their kids at another school that is not WRE, or they don't want people in the school who do not live in the community, it could go on and on. some of the kids may actually like going to a new school
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.	Would like to see Smaller class sizes	Safety	Security	Traffic flow	Walkability	
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Diversity is a necessity	Safety/location	Traffic flow		
Yes	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Walkability	Equal division of boundaries	Safety and security	Green space	
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Safe and secure location	Traffic flow	Green space		
No	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.	Moving the homes north of Walnut Hill to Northlake within their neighborhood makes the most sense and will alleviate the issue at WRE. It doesn't make sense for them to cross a 6 lane, busy road anyway. However, building an entire campus within such a tiny neighborhood of White Rock Valley is very short sighted and should not be considered a long term solution for the whole of Lake Highlands.	No new school in WRV	No new school at Goforth Rd	No new school at WRT		Overflow should NOT be allowed at White Rock Elementary under ANY circumstances.
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.	The re-balance needs to be done in a equitable manner, unlike the original re-drawing of boundary lines for the proposed WRT school.	The re-balance needs to be done in a equitable manner, unlike the original re-drawing of boundary lines for the proposed WRT school. The demographics of a new school should mirror demographics of WRE (ex: single-familv. multi-familv. etc).	Land size equal to the size of White Rock Elementary.	School not on a busy street.	Location should be in a location where children can safely walk to school.	In order to be equitable, any redrawing of boundary lines should include single family homes in White Rock Valley proper (East of White Rock Trail, South of Walnut Hill and West of Audelia Rd).
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Walkability	Safety	Fairness in attendance		
Yes	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		traffic flow	safety & security			
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Plenty of open green space	Traffic flow	Parking for special events		
No	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Ample room for classrooms and staff	Ample room for extra curriculans (art, music, PE)	Flexible space that can be adapted for future needs		I feel like our community's ultimate need is to build a new school. Our population will continue to become more dense in the future. However, I believe the most immediate need is to reshuffle the populations of all of the neighboring schools to diversify the campuses and alleviate the overcrowding at WRE. Three schools of 750 makes much more sense. I also think that board should make an effort to rebalance the populations more regularly. I know that this causes quite a bit of angst in our neighborhood, but it's the right & best answer for all students that these PUBLIC schools serve.
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Not on a busy street	Diversity levels remain balanced between WRE and new school	Large green/outdoor spaces	Site large enough to build single story building	
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.	Mixing with Northlake is your best option. (Think about it)	Correct lines for attendance making it successful	Meaningful location	Walkable	not building something just to build something	
No	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Walkable	Safe and secure	Well balanced	Traffic flow	
No	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		No school at White Rock Trail	Traffic Flow/disruption to the entire neighborhood	Safety of the site	Ability to walk to school	RISD transparency throughout the process. Consider rezoning some WRE single family homes to Northlake Elementary for 2017-18 school year and beyond. Perhaps north of Walnut Hill Road or north of Spring Branch would be a natural division of the current WRE boundaries.
No	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.						I struggle with answering question 8 because I feel like all of these factors are equally important for an elementary school. If another type of campus were to be considered, I could more easily weigh those options.

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary? Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		green space	walkability	safety and security	traffic flow	
No	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		don't build a new school in the current attendance zone	don't build a new school in the current attendance zone	don't build a new school in the current attendance zone	don't build a new school in the current attendance zone	These raw data should be made public along with any other data that is collected during this consultancy period. We do not need another school in this neighborhood. The lines need to be redrawn so that people that live within walking distance to WRE are able to attend their neighborhood school. The attending neighborhoods north of Walnut Hill should be rezoned to a different school, at the very least. We need to be focusing more on the overcrowding at LHJH and LHHS.
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Safety and security	Walkability	Traffic Flow		
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.						
No	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		The school not be in White Rock Trail	Walkability to a point			
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Traffic Flow	Safety and Security			
No	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Traffic	Safety	Walkability		Please consider rezoning sooner than later in order to alleviate the overcrowding and allow those closest to the elementary school the ability to go to their neighborhood school.
No	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.	I am choosing option 3 with the caveat that boundaries be redrawn immediately so it is not just a long term, but short term solution to the overcrowding. I am also in favor of adding on to WRE, but I am only in favor of that if construction can be done over the summer so that the 2017 kindergarten class can be accommodated. Lake Highlands wide, I believe a 5/6 grade center located at the junior high would be the best solution for the overcrowding and of course, would also solve the problem at WRE. Additionally, if we cannot either immediately redraw boundary lines or add on to WRE, I am in favor of portables or other creative solutions so that the kindergarten class can be kept together at WRE. Any solution that requires 2017 kindergarten overflow to another elementary school is unacceptable.	I don't want a new school within the current attendance zone	I don't want a new school within the current attendance zone	I don't want a new school within the current attendance zone	I don't want a new school within the current attendance zone	The community has already said that it doesn't want a new school. Expanding WRE, redrawing boundaries or a 5/6 grade center are all good solutions. But what we need is a solution FAST! Anything that requires overflow for next year is unacceptable.
No	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Traffic flow	Walkability			We don't think that adding onto WRE would address the problem. Even if the school could accommodate 1000+ students, this is still more crowded than a neighborhood elementary school should be, and certainly more crowded than any other elementary school in the district. We were not opposed to the White Rock Trail proposal, but since this was so strongly opposed by others, the only clear solution to us is to redraw lines. Those opposed to the WRT proposal stressed the need for walkable neighborhood schools. As such, it makes no sense for those north of Walnut Hill to attend WRE, while those within less than a half mile of WRE (like us) could potentially be sent to other schools.
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.						
No	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Traffic flow	Safety and security	Walkability

Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.						Why not rezone the current White Rock Elementary boundaries to include a fair and even dispersment to Northlake Elementary while investing allocated funds for a new elementary school back into improvements for White Rock Elementary and Northlake Elementary?
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Accessibility	Geographically contiguous with student population	Safety	Sufficient size property	Why would you build a new school that would have capacity for 500-700 kids when you only need room for 100 students? Makes know sense when their are neighboring schools with capacity.
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.						
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		safety	traffic flow	logical boundaries that are not wishy washy		Other than the site previously selected, there does not seem to be a site within the WRE attendance zone.
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Walkability	Safety and security	Neighborhood school feel		
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.	I believe we need to rebalance the current attendance zones in the interim in order to solve the current needs. However, I believe the best long term solution is to create a new K-6 school within the Lake Highlands area, not just White Rock.	Safety and Security	Traffic Flow	Walkability		White Rock Elementary is over crowded and the issue needs to be addressed. We believe the interim problem needs to be addressed with rebalancing and redrawing lines within WRE attendance which may require students to flow to neighboring schools. However, it is imperative that we look at a long-term solution for the entire Lake Highlands area, and I believe that solution will require creating new K-6 schools. In addition, we need to also look at the junior high schools and create a plan to address the growth in the junior high schools. We need a solution NOW! There are too many children currently at WRE and teachers/administrators are not able to effectively accommodate all students. This unfortunately has, and will continue to, result in children be "lost" or left behind. This neighborhood has traditionally never agreed with anything and not will we. But we are hurting the children that CURRENTLY attend the school. Potential footprint- will the building be able to accommodate growth. Will the green space allow for activities and learning.
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Safety	Security	Potential footprint	Walkable	
No	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		not in support of this	not in support of this	not in support of this	not in support of this	
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Safety	Appropriate size for school and adequate outdoor space for recess and sports fields	Walking distance for students attending	Traffic flow	
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Traffic flow	Traffic flow	Traffic flow	Traffic flow	You need to add portables as has been done in the past and realign boundaries. If security is an issue put them in the center parking courtyard and wall them in. Add a cover to the outdoor basketball court for additional inclement weather play space
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		walkability	traffic flow	size - don't want a huge school or a tiny school	playground area/fields around school	
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Reducing the number of kids at WRE so registration doesn't require camping out to get your child into school	Traffic. The spot of WRT and Walnut would have worked if changed traffic light to include turn arrow.

No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.						

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		cost	safety	school environment	traffic	As retired a RISD teacher I feel it is undesirable to operate a school with 900 elementary age children. Having taught several years at Terrace Elem. before Harben and Richland were built, it was difficult working in a school with 4 classes of each grade (1-6) and 35 in each class, in addition to Kindergarten. That was about what WRE has now. Scheduling Lunch, PE and Music was a nightmare. Using the playground was difficult and rigidly enforced. I understand. Making the school bigger doesn't make it any easier to feed 1000 children between 11 and 1. It doesn't make more playground room for Recess and Gym. It doesn't make it easier, faster or safer to pick up or drop off your child. It doesn't make the halls more quiet, the environment any more intimate or the setting more conducive to building relationships among students and among faculty. Having your own local school where each child can walk safely each day is probably everyone's first choice. When that is not possible, then the next priority should be having each child in a school where the environment is conducive to learning, where it is safe, where ideas can be nurtured and faculty can freely move about using alternative spaces (the library, gym, playground, cafeteria) for creative lessons or special occasions. This is not possible when 1000 students and their faculty use one school whether it has extra classrooms or not. I would not want my little one attending a school with 1000 children enrolled. In 10 years this generation will be in junior high and we may well be in the situation we were in in the eighties when WRE was on the verge of being closed due to the small enrollment. Let's not forget generations cycle. Let's not spend good money needlessly when simply redistributing households may solve the problem for the next 10 years. As a 30 yr. RISD teacher, as a 35 yr. WRE resident, as a past WRE parent (1982-1994) let's look for an alternative to building a mega school. Mega schools are not
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Enough space for 600 + students	safe walk to school	traffic flow should be safe		
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		location away from major multi-lane thoroughfares	location easily and safely walked by students	location which will provide relief to multiple schools		No school at White Rock Trail
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Walkable				
Yes	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Not on White Rock Trail	Safe walkability	No impact to current congested traffic flows		
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		No School at White Rock Trail	Abundant green space on campus	As safe a location as possible	Walkability and/or adequate parking for after school activities	
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		traffic flow				
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Safety	Traffic flow			
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.						RISD should NOT build a new K-6 school within the WRE attendance boundary.
No	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Walkability	Safety and security	Adequate land for sports fields and play	Traffic flow	I am not in favor of a new school within the WRE attendance zone. I'd suggest looking for a new build opportunity to the east of WRE, Northlake, LHE and WE. Please look at the larger area and how attendance lines could be redrawn in this quadrant of elem. schools in addition to a new build. I don't see the incoming kinder classes decreasing anytime soon.
Yes	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.	I think the whole Lake Highlands area needs to be addressed and rebalanced. The problem is not only at WRE. There is overcrowding at LHJH and LHFC/HS, where our kids also attend. And I hear other elementary schools have the same problem, however, I do not know for sure since my kids do not attend there.	plenty of green space	traffic flow	safety		
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		safety and security	traffic flow	walkability		
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.	I think households north of Walnut Hill should be rezoned to fall into North Lake Elementary. Before we moved to Spring Branch Dr, our child attended North Lake. We found it to be an excellent school with extremely dedicated Teachers and Staff.	Traffic flow				I was fine with the location on the corner of White Rock Trail and Walnut although I was concerned that traffic might be hectic.
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Keeping it internally in the neighborhood like WRE is. It is in the heart of our neighborhood. We don't want to go to a school on the outskirts of the neighborhood. Centrally located.	Walkability	One story	Room for big playground and green space	
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		traffic flow	walkability			
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.	I think attendance needs to be balanced among all of the Lake Highlands elementary schools. Putting a new school in the white rock attendance are doesn't address overcrowding at other elementary schools - nor does it address overcrowding at the junior high and soon at the high school.

Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Safety and security	Traffic Flow	Walkability		
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Walkability	Safety	Security	Traffic	
No	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Limit breaking up neighborhood (NW Hwy to Walnut, Audelia to WRT)				Hard decisions are going to have to be made regarding attendance lines. Make a decision and stick with it. Stick with natural geographic (i.e. primary roads) boundaries in making decisions as homeowners north of Walnut Hill knew the risks of moving into an area so divided from the school when they moved there.
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.						
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Safety	Traffic Flow			We have school age children, one in Kinder (6) and one that could go next year to kinder (will turn 5 this summer), and 1.5 year old. We have been dissatisfied by the overcrowding issue and chose to send out kids to private school for the time being because having 7-8 sections per grade just seemed overwhelming. It's unfortunate. If things are worked out and WRE could get back to its original size, we would possibly consider sending our kiddos there with all their neighborhood friends.
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Safety	Walkability	On interior streets such as Goforth		
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Safety and security	Traffic flow			
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.						
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		No School at White Rock Trail	Walkability	Carpool drop off and pick up must be outdoor, not in a garage	Safety and Security	There is no need for a new elementary school within the WRE boundary. The obvious solution is to rezone the homes and apartments north of Walnut Hill to NL, LHE, and/or TME. If any new school must be built within the WRE attendance area (which is nonsense), it should be built on the city property on Goforth.
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Walkability	Traffic flow	Safety		
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Safety	Cost	Suitability to take transfers from other RISD areas as patterns change	Traffic	I don't see a practical option for walkability within the existing zone, unless the district were to take out several existing homes. I don't think it makes sense to put a new school toward the DISD end of the WRE zone. Given rejection of the recently-purchased site, I don't see much in the way of siting options unless Hollywood Doors site can be purchased or something could be made to work on the north side of the Town Center area (N of Walnut Hill, E of Skillman). For those reasons, and having watched the ebb and flow of the neighborhood for 30 years, I'd favor redrawing the lines. If a sufficiently large block of WRE kids and families are assigned to Northlake, Northlake will very quickly become a sought-after school for neighborhood families.
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Traffic flow	Safety and security	Large grass (common) play area		
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Walk ability	Traffic flow	Safety security	Green space	
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Walkability	Traffic Flow	Size of lot (to accommodate playgrounds, playing fields, etc)		
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		safety and security	size of site	walkability	cost of land & construction	Please address the current space limitations in a timely manner! This is a good start at better communication between RISD and the WRE neighborhood. Please continue to communicate openly and honestly with us!
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Walkability	Safety	Enough land		I think we should keep neighborhoods intact. Several neighborhoods are divided in the boundaries but White Rick Valley should remain intact.
Yes	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		walkability to the new elementary school	Keeps neighborhood school feel			
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Safety and security	Walkability	Traffic flow	Maintaining reasonable attendance zones	Rezoning north of Walnut Hill seems to be the quickest and least expensive solution.
No	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Safety and security	Location is geographically near the current attendance zone	traffic	walkability

No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		safe access to school				perhaps all of one grade level could attend another area school such as all kindergartners or all 6th graders
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Walkability	traffic flow	safety and security	green space preservation	
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		a location that makes sense with regards to drawing new attendance zones i.e. balance out the attendance to allow for future growth in a new school and currently existing schools	safety and security			I wish I could have answered two questions to the first one: in that I would be equally happy if RISD chooses to build a new school (requiring WRE lines to be re-drawn) or if RISD simply re-draws the lines across all the local elementary schools (including WRE) to make the enrollment numbers more equal.
No	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.						
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Traffic flow (primarily of WRV neighbors exiting the neighborhood each morning)	safe location with multiple streets to enter on, and plenty of street parking	good balance of dividing the neighborhood where it makes sense for all those kids walking (closeness)	try to make both schools seem equal and attractive to the "neighborhood" feel everyone moved here for	
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		We do not support building another K-6 school in WRE attendance zone.	We do not support building another K-6 school in WRE attendance zone.	We do not support building another K-6 school in WRE attendance zone.	We do not support building another K-6 school in WRE attendance zone.	- We would also support a 5/6 intermediate school (on the same land as the existing LHJH). - Under no circumstance do we support making WRE larger. - We want to see bond money/funds allocated to the middle school and high school for certain overcrowding happening very soon.
No	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.						
No	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Traffic Flow	Safety and Security	Walkability	Economical building costs compared to recent schools built	- My 1st choice is to add 6th grade to LHJH or create a separate 5th/6th grade center. LHJH needs the money and this would eliminate the need to redraw lines. I don't understand why this isn't an option in the survey. - However, my #1 priority is to have a solution available for the incoming 2018 kindergartners. Keeping families in limbo and forcing kids to switch schools multiple times is not fair. Also, the selection process implemented to determine overflow to LHE seemed to be based on internet speed instead of proximity to WRE which does not seem logical.
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Traffic flow	Safety	Not too close to another elementary, balance		Grade 5-6 could be split from K-4
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Safety and security	Traffic flow			Seems reasonable that the children north of Walnut Hill could go to Northlake Elementary if it's not too crowded. I think it would also help draw neighborhood families to Northlake. I think dividing White Rock Elementary and Northlake by grades should be considered - kindergarten through 2nd or 3rd at Northlake and the remainder at White Rock
No	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Safety and security	walkability	traffic flow		
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.						
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Open Capacity issue at both schools	Playground space	Traffic	Attendance lines make sense	
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Traffic flow	Balance re diversity of students within each school	Traffic flow	Diversity balance	You will not be able to please everyone, and I would ask that the decision-makers not allow themselves to be bullied by any one person or group, but rather to do what's in the best interest of the entire community given future growth projections and other pertinent data. Lines need to be redrawn or a new school built. RISD needs to make a decision and stand behind it! RISD has been incredible in irresponsible in the handling of this! For example releasing a plan and then going back on it to appease people. Highland Park ISD had similar problems and was able to make a plan and execute it affectively in a timely manner. They avoided the current problems RISD has because of their leadership! I am apauled at the poor leadership RISD has exhibited in handling this. Make the best decision to solve the problem and execute. White Rock is too big! The neighborhood north of Walnut hill and by flag pole hill should be redrawn and sent to Lake Highlands Elementary or Northlake. Also address the overcrowding at the Lake Highlands Middle school and High School now or you will have the current problems continuing. RISD you need to do better, much better! Many of us are seriously considering private school because we are so disappointed in the overcrowding at White Rock, decisions of the board, lack of leadership and lack of plan! Do not cave in to one set of voices and let another Kindergarten class into White rock at the expense of larger 5th and 6th grade classes. Make a decision, stand by it and solve the problem!
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Safety and security	Traffic flow	Walkability		
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.

No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Not at WRT and walnut hill-	Education	Safety and security	Traffic flow	I think RISD needs to look at not only WRE as an overcrowding issue. I believe attendance areas for all RISD elementary schools should be redrawn to balance numbers. RISD also needs to look into the junior highs. As the elementary schools are overcrowding this will trickle up to the jr highs and high school as well. Our junior high facilities are outdated along with the high school facilities. WRE has a voice but I believe the problem extends well beyond WRE. Northlake elementary used to be the top elementary school before WRE became what it is. I feel like redrawing all boundaries within RISD could benefit all elementary schools. No reason the ABC streets should cross Walnut Hill when they can walk to Northlake. Make northlake great again. Thanks for your time and efforts.
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Traffic Flow	Safety	Walkability	Ability to balance other LH schools	Make attendance boundary line Walnut Hill and then add onto Northlake Elementary.
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Adequate green space	Safety and security	Walkability		
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Walkability	Traffic flow			
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Traffic flow	Safety and security			We are already encountering similar issues at LHJH and LHHS (overcrowding, not enough classroom space, not enough materials for students, etc.), so these campuses need to be addressed as well.
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		walkability	traffic flow	security	green space	I know it says a new school within the current WRE attendance zone, but I think it should be within the LHJH zone and draw from more than one elementary school.
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.						
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Security	Adequate play areas including green space and trees	Adequate room for carpool lines and parking		
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Walkability	appropriate size plot of land for the campus	traffic flow	appropriate division lines	Move area North of Walnut Hill into Northlake attendance zone and problem is solved. If necessary build onto Northlake.
Yes	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.						
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Walkability	Traffic flow	Safety		
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Safety	Diversity			Would be great to rezone to share some of the "wealth" and make NLE just as great as WRE with involved neighborhood parents, \$ and teachers... and maybe rezone to add some diversity to WRE.
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Safety of kids walking to school	Traffic flow impact on nearby streets	Green space		I do not support building onto WRE to accommodate the projected enrollment.
No	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Safety and security	Traffic flow	Green space	Diversity	I still support a 5/6 grade center as well.
No	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Walkability	Outdoor fields/recreation area	Proximity to homes/neighborhood		I believe that RISD should purchase one of the many dilapidated apartment complexes within the area, tear down the apartments and build a new elementary school
Yes	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Traffic				
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		safety	security	walkability	traffic	
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		I don't think you should build a new elementary school, however I am in favor of a 5th/6th grade center.	Focus these bond dollars on LHJH and LHHS to address future growth.	No school at WRT!	Changing attendance zones has the potential to lift ALL elementary schools.	Instead of building a new elementary school, RISD needs to focus on improving all elementary schools by filling open capacity at existing schools and expanding the junior high and high school for the existing wave of students.
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Traffic flow	Safety and security	Reasonable boundary lines		I think we should just rezone the district. School population ebbs and flows. Do we really want two half-empty elementary schools in 20 years??
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Safety	Walkability	Cost	Adaquate play space/practice fields	I'm concerned that it took this long for the district to understand what the needs are in this neighborhood. I'm also concerned about what this will mean for the junior and high schools. Finally, I am concerned about the falling scores for White Rock Elementary and expect a plan for the school to increase these numbers.

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
No	No	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Walkability	Security			
No	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Walkability (part of the neighborhood)	Traffic Flow	Built to Accomodate Future Growth		As politically unpopular as it may be, I really think RISD should re-draw the boundary lines. I don't want my child going to a neighborhood elementary school with >1,000 students. Traffic is bad enough already and it will get too big. For the students who currently live north of Walnut Hill, there should be a closer and more walkable elementary school option. I know they don't want to be re-zoned out of WRE but they aren't in the the same neighborhood. If our "neighborhood" elementary school is too crowded they should be the first to go.
Yes	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		No School at WhiteRock Trail				
No	Yes	Rebalance the current attendance zone	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		safety	walkability			My concern with building a new elementary school is that the overcrowding problem would continue for several more years through the building process. I am concerned that though WRE is overcrowded, it will not fill 2 schools if divided.
Yes	Yes	Combination approach	None of the Above	Enact a combination of re-zoning and additional schools to better allocate students. Based on RISD site, enrollments are: WRE 926,Wallace 832, LHE 724, NL 616 WRE and Wallace need the most crowding relief and NL needs the most investment and re-invigoration. LHE seems basically OK and could be the overflow school for some of temporary crowding as schools are built. Step 1: *Re-zone all WRE students north of Walnut Hill to Northlake. *Re-zone Northlake students east of Audelia to Wallace; my understanding is that most of the single-family Northlake zone east of Audelia are not currently attending Northlake. *Re-zone Wallace students south of Walnut Hill to a new school south of Walnut hill to alleviate long-term family growth since there is currently no school in this area. Step 2: *Build new school along Plano Road, somewhere between McCree and NW Hwy, using either open land or commercial sites. Potentially include some of the streets in the south corner of LHE zone. This would alleviate pressure on Wallace and provide a school at the far edge of the district to cover volume needed *Invest in Northlake to ensure that former WRE zone students attend there and make a strong push in the surrounding neighborhood to lobby the single-family residents to attend Northlake along with the re-zoning changes. -If WRE continues to be over-crowded even after re-zoning, consider re-zoning into LHE the southeast streets south of Lanshire, east of Shoreview. Otherwise, considering building a new school within WRE zone at the city of Dallas facilities on Goforth Road. This would be a walkable location for some WRE residents, and could be also be easily accessed by residents north of Walnut Hill if they were not rezoned to Northlake. Another location within WRE zone would be clear that no school is built at White Rock Trail!!! I do think the attendance zone for WRE should be changed so kids living above walnut hill go to Northlake. I don't want a super large school at WRE but 4 or 5 classrooms more plus addition to cafeteria. Plus, add onto Northlake and LHE. 5/6 grade model at Goforth could work. Need safe, walkable site for school. WRT and walnut is not the answer!!!! The overcrowding issue needs to be addressed not only at White Rock Elementary but also at the Jr High and High School. All of these kids will end up going through the entire system, it only makes sense to address all levels. My fear is that something will be done to address White Rock and then in 5 years there will be an issue and the district will ask for more money to address overcrowding at the Junior High and High School. The overcrowding at White Rock should probably be addressed with a combination of the items above. But if there is a new school built and/or the attendance zones are redrawn, the district needs to make sure that they are fair. Rebalance attendance zone for WRE, keeping all homes south of Walnut Hill in the WRE attendance zone, address overcrowding in Lake Highlands by building more elementary schools in other zones, then rebalance again - maintaining a smaller attendance zone for WRE. Elementary schools need to stay small. Rebuild larger middle schools and possibly create a 5/6 and 7/8 model as Highland Park ISD has successfully accomplished due to growth. The objective is to keep elementary schools small. Utilize Northlake attendance zone to bring back that school and help WRE overcrowding. Make one school K-2 and the other 3-6. This option was preferred by the committee they gathered and it would attract students to attend Northlake it is used but mainly not homeowners. U won't have to re draw lines and you already have a school right here that just needs some updating. WRE doesn't need to be a mega school it already is and does function near as good as when it was at 600. Combine the NLake and WRE school zones and utilize both schools no need to look for property just what U already have!!!! A new school is probably the best idea, but the boundaries should be different from those that were previously suggested. There should be a fair distribution of single and multi-family homes in each school. It also might be necessary to tweak the boundaries of surrounding elementary schools, as well, to address district-wide overcrowding.	NO School at White Rock Trail	Walkability from existing single-family homes	Safe and logical traffic flow for drop-off	Enough space for typical school activities, playground, gym, etc.	NO School at White Rock Trail. If RISD decides to build a school within K-6 zone, I would recommend the site on Goforth Road, which currently houses a lot of various city utilities functions. Many students could walk. The boundaries could be logical such as south of Royal Pine on the east side of White Rock Trail, and everything west of WRT and north of Walnut Hill. #2 idea would be a new school north of walnut hill, but that might need to take in some of the kids in the Merriman Park zone to balance out numbers.
No	No	Combination approach	None of the Above		No school at White Rock Trail	Walkability -	Need enough green space for kids and neighborhood to be able to utalize	Traffic flow - easy parking, easy in and out, away from busy intersection	No school at White Rock Trail and Walnut. It is not safe, not walkable, too small, and terrible location for traffic flow. Very open to solution but no school at WRT!!!!
No	Yes	Combination approach	None of the Above		Safety, security, traffic flow, location, amenities	Safety, security, traffic flow, location, amenities	Safety, security, traffic flow, location, amenities	Safety, security, traffic flow, location, amenities	
No	No	Combination approach	None of the Above		safety and security in case of emergency	traffic flow in case of emergency	size must accommodate a large playground	walkability	WRE must not become a mega school to satisfy current population growth. The school is barely manageable as it is, and the playground, parking and traffic is maxed out. Change the boundaries before adding on anymore classrooms. It is a neighborhood school that will be ruined if it becomes any larger. We have lived here since the neighborhood was built, and two generations of children have attended WRE. Future generations deserve the same experience, along with afterschool programs that are no longer offered due to the school size. Please redraw the boundaries and build more schools outside of the WRE zone. Thank you! Im so surprised that they haven't used a school like Northlake that is right here in this community that wants to be a neighborhood school but it really mostly apartments and transfers intend of the people who live right here. If NLake was better you wouldn't have SOOO many that live on that side that attend private school. I can;t imagine RISD doesn't want to inspect that aspect and try to help that school back to what it was in the 70's. Im also surprised they(NLE) have so many apartments and that WRE doesn't. WRE needs diversity bc once they go up the ladder to LHJH and LHHS they are presented with it.
Yes	No	Combination approach	None of the Above		Fair division of Attendance zone (not like last proposal)	Traffic Flow (already had with existing schools in close proximity)	enough space to play - green space	greta teachers take some veteran teachers to start it up	
Yes	No	Combination approach	None of the Above		Safety	Walkability	Traffic flow	Green space	

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
No	No	Combination approach	None of the Above	A combination of adding on to White Rock Elementary and rebalancing the current attendance zones. Northlake Elementary would benefit greatly by rebalancing its attendance zone to include the North side of Walnut Hill between White Rock Trail and Fieldcrest. This might include also adding on to Northlake Elementary and rebalancing the Wallace/LHE attendance zones. RISD seems to have taken a very narrow view by addressing only the overcrowding at WRE. Please consider a more long term solution that is inclusive of all of Lake Highlands Junior High feeder schools. (This survey is not inclusive of all residents of WRE - I only heard about it through "We Have a Voice" and White Rock Valley Homeowner's Assn. - both through email). Once again RISD has not given ALL taxpayers in WRE a chance to complete a survey. I heard a survey would be mailed to each address in the WRE attendance zone - I haven't received one. There are residents of WRE who are not connected to the completely voluntary homeowner's association and do not have					I am in total disagreement with building a new K-6 school in WRE. Please consider adding on to WRE, Northlake, Wallace & LHE if necessary and redrawing the attendance lines to include walkability, safety & security, traffic flow for ALL LHJH feeder schools. Kids living at Alista apartments having to cross Audelia to get to LHE-that's not safe at all. Please take a broader view of the entire area.
Yes	Yes	Combination approach	None of the Above	New school and a rebalance/redraw, but better location than White Rock Trail and Walnut Hill...realizing finding an appropriate site location will be difficult. At a minimum, it does seem silly that folks north of Walnut Hill go to WRE despite being so much closer to Northlake.	Safety	Traffic	Walkability		
Yes	Yes	Combination approach	None of the Above	Create a 5-6 school and you still may have to redraw some boundary lines.	Available space for the school (needs green space)	Traffic Flow	Safety and security	Proximity to other elementary schools	
No	No	Combination approach	None of the Above	Rebalance current attendance zone AND reconfigure 5/6 grades at LHJH campus. None of the options alone addresses the long term issue. I think it needs to be a combination of option two and three. Build a new school--in a GOOD, SAFE, LARGE location--and then redraw boundary lines. I do not think adding on to WRE is the option. It is already overcrowded with too many people. I don't want a mega elementary school for my children. It changes the community feel and it becomes a safety issue. Plus, with a mega school, it's harder to manage and have special activities, after school programs and clubs. The solution could be a hybrid of both the second and third. Rebalance of the current attendance zone definitely needs to ensure that students attend their particular neighborhood school. Students should not be crossing Walnut Hill or Audelia to attend WRE. A new school can then be sited in a logical location that fosters a true neighborhood elementary school where children and parents can walk to school.					Do not build.
Yes	Yes	Combination approach	None of the Above	Unfortunately, I think the solution will need to be a hybrid of many options. First and foremost, I strongly believe RISD should strive to model all the LH schools in the walkable, center of the neighborhood model that has brought families in droves to the WRE area. What appeals to everyone is having a wonderful school at the center of the neighborhood where everyone knows each other, walk to and from a QUALITY school which offers lots of activities during the day and outside of school that is the heart of the community. My son is a 6th grader and that is what we experienced at first at WRE. Now, the school is so large that many programs have been cancelled, and the size is so big that it is losing the smaller neighborhood school feel. Many parents who have older children talk about how the school attendance was so low 7-10 years ago that the school was nearly shut down. What this says to me is that attendance will ebb and flow. Also, attendance zones have been changed in the past to help schools have proper attendance numbers. For example, the North side of Walnut Hill being shifted to WRE when there is a closer elementary school for them or the number of pulled in kids to LHE. That being said, I do NOT support adding on permanent wings to WRE. However, I would support portables for a short term solution. Again, I support any model that promotes a neighborhood school. I think some of this would be accomplished by rezoning attendance to help support North Lake. If the homes were shifted back to North Lake attendance, the school would have immediate PTA support and the school would likely have the same trajectory WRE has had. I also support a 5/6 model as it would be a great way to still maintain neighborhood elementary schools as well as steer our 5/6 kids towards greater responsibility and success. Additionally, I would support a magnet school for the area. I think a combo of options like this will help RISD not overbuild, yet offer viable solutions now. Not everyone will be happy, but we need to make sure the kids are taken care of AND help support the neighborhood so LH continues to be an area people want to live in for decades to come. Give people an option to have neighborhood schools to match the small town life within the big city so we can continue to have home appreciation and tax money for RISD. Keeping LH vital and growing is extremely important to us as	safety	walkable distance	large outside play area	traffic flow	Please don't make our amazing WRE a mega school.
No	No	Combination approach	None of the Above	Build a 5/6 center at LHJH, just like the citizens have told you over and over and over. Even without any information or explanation from RISD, the citizens have investigated HP and Wylie. The informed citizens understand it. Build a 5/6 center. Build 5th & 6th grade schools on the Lake Highlands J.H. and Forest Meadow J.H. campuses. Implementation of an Intermediate School at the Jr. High Campuses, shifting 5th and 6th grades to said intermediate schools, and alleviating overcrowding across Lake Highlands.	Walkability to the new elementary school	Traffic flow	Ample play/athletic space	Improvement of the neighborhood	If the district is looking for a suitable site, it should look to any number of rundown/neglected apartment complexes as a good place to start. This replacement will aid in addressing crime as well as over-crowding of the schools. Additionally, many of these apartment sites back up to natural features/greenery/creeks that would complement a school nicely. This may sound like a rough tactic, but DISD has done this successfully.
Yes	No	Combination approach	None of the Above	My preferred solution is to make elementary schools K-4 and build a 5/6 grade center on the campuses of Lake Highlands Junior High and Forrest Meadows Junior High. Also, to improve outdated resources at both junior highs to accommodate the growth in Lake Highlands.	SAFETY and security	NOT overbuilding and location making logistical sense	Walkability	Traffic Flow	Question 8 doesn't make sense to me in context of a second school within the WRE attendance zone. I answered it more for what I think any school in LH should be. I don't think having 100-150 kids over a schools 850-900 student capacity warrants a second dedicated K-6 school within the neighborhood. I am shocked that is even an option because it seems like it would create far more issues 5 years down the road when attendance shifts to the secondary schools. Also, a second K-6 school within the WRE neighborhood would split the neighborhood apart. I would support a 5/6 school within WRE similar to what other school districts have done with success.
No	No	5th-6th at LHJH	None of the Above	Build a 5/6 center at LHJH, just like the citizens have told you over and over and over. Even without any information or explanation from RISD, the citizens have investigated HP and Wylie. The informed citizens understand it. Build a 5/6 center. Build 5th & 6th grade schools on the Lake Highlands J.H. and Forest Meadow J.H. campuses.	they are ALL important	they are ALL important	they are ALL important	they are ALL important	
Yes	Yes	5th-6th at LHJH	None of the Above	Implementation of an Intermediate School at the Jr. High Campuses, shifting 5th and 6th grades to said intermediate schools, and alleviating overcrowding across Lake Highlands.	No School at White Rock Trail	Safety and Security	Walkability	Traffic Flow	
No	No	5th-6th at LHJH	None of the Above						No new school in current WRE attendance zone. No school at WRT
No	Yes	5th-6th at LHJH	None of the Above		No school at the White Rock Trail and Walnut Hill location	safe walkability- sidewalks, curb and gutter, 12 ft min lanes	traffic flow - City of Dallas provides an upgraded infrastructure (drainage and roadway improvements)		I am concerned that RISD is not preparing for the amount of overcrowding the junior highs are going to have in the next 5 years. The bond money should be spent to better improve Lake Highlands community as a whole and not just focus on WRE. I look forward to our growing community and to support it. The metroplex is a fast growing area and I love where I live.

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
Yes	Yes	5th-6th at LHJH	None of the Above	The three options provided are all poor choices. Focusing only on WRE overcrowding is a band-aid fix to a larger overcrowding problem in the LH area. LH junior-high and high-school are also overcrowded, and the problem will only get worse as the current elementary-aged kids matriculate. Converting WRE to a K-4 school, and adding a facility at LH junior-high to allow for a 5-6 school and 7-8 school provides an immediate solution to WRE's overcrowding, and sets RISD and the LH area up for success in the future. This solution is more fiscally sound and much less disruptive to the community than the three options identified in the survey. Further, variations of this solution have proven successful throughout the state (e.g., Keller, Wyle, HP, etc.)	RISD should not--under any circumstances-- build a school at WRT/Walnut. It was negligent that RISD ever considered this location in the first place.	Facility with plenty of green-space and cutting-edge education programs and technology	Proximity to home	Walkability/traffic flow	
No	Yes	5th-6th at LHJH	None of the Above	The addition of a 5th/6th grade campus at LHJH.	No school at WRT.	Safety/security.	Green space.	Traffic flow.	
Yes	Yes	5th-6th at LHJH	None of the Above	I like the option of a 5/6 center at the Junior High campus. I would want a separate building for 5/6 only. 5/6 and 7/8 can share common areas at separate times (Gym, cafeteria, library, etc...)					
Yes	Yes	5th-6th at LHJH	None of the Above	Out of the options above I would chose to add on to WRE, but I do not see how this solves the Lake Highlands problem. This only solves the issue for WRE, and our children will continue to be on the breaking point when they get to the Junior High and onto the High School. Building a 5-6 Center at Lake Highlands Junior High would solve the long term problem for not only WRE, but all the other over populated elementary schools that feed it. This would be less expensive for tax payers, as the land is owned by RISD already. This is the option that has been selected by the residents in the reflector committee and in the previous survey. This solution works at Highland Park and Wiley, so it is hard to understand why we feel it would fail here.	No school in the attendance zone	No School in the attendance zone	No School in the attendance zone	No School in the attendance zone	We do not want to build a school in our attendance zone. It will be too expensive and will not solve the issues across all of RISD.
No	Yes	5th-6th at LHJH	None of the Above	I believe none of the above address the situation of overcrowding at the junior high level. I'd like to see a school built on the junior high campus that accommodates 5/6 graders.	Safe walkability	Close proximity to our house	Safety and security	Green space	I do not think a new K-6 school is a good option for our neighborhood at all and do not endorse it.
Yes	Yes	5th-6th at LHJH	None of the Above	I like the idea of a 5th-6th grade school next to LHJH. This solution will help reduce overcrowding at all of the elementary schools that feed into LHJH. I am encouraged to hear that it has worked in other areas such as Highland Park.	No School at White Rock Trail	Traffic Flow	Interior of a neighborhood	Safety and Security	
No	No	5th-6th at LHJH	None of the Above	5/6 schools on the junior high property	Boundary	Plenty of green space for outdoor activities	Safety	Walkability	First choice is 5/6 school. In addition, Look at turning Northlake into Spanish immersion magnet School
No	No	5th-6th at LHJH	None of the Above	Change attendance to WRE to 1-5. Build additional facility at LHJH to accommodate 6th grade and the growing needs of 7th and 8th grade at LHJH	fiscally responsible	safety	traffic flow	walkability	The growth problem is not just at WRE - it's at LHJH and LHHS
Yes	Yes	5th-6th at LHJH	None of the Above	Add sixth grade to the Jr. High if the school can't add on more classrooms. build 5/6 grade schools on the campuses of LHJH and LHJH and move to a K-4, 5/6+7/8 model that is successfully used in HPISD, Wylie, Keller, and other successful districts. The reflector committee chose this, Dr. Stone has said she likes this model. I'm not sure why it has been repeatedly torpedoed, since it has community support and these other options don't. I'm not sure why it's not included here, other than "you don't want to do it." If you think that overcrowding is limited to WRE, you're sticking your head in the sand and don't know your own numbers. Moss Haven will be in the same situation in a few years, and others are already reaching max functional capacity. Also, #2 and #3 above do not qualify as solutions without more specific details. "Rebalancing the current attendance zone" is a general direction, not a plan. Show me the lines. Why would you survey a community that is so obviously underinformed? What has Stantec found that you have to show us?	If new school is built, children should not walk past new school to get to old school				
No	Yes	5th-6th at LHJH	None of the Above	I would prefer that either a split campus is built on the White Rock Trail-Walnut Hill site (3-6 or 4-6), or 6th grade is moved to the junior high. Both of these models have been successful in many other districts. Moving 6th grade to the junior high would alleviate overcrowding across Lake Highlands and be a more forward thinking plan.	All of these are priorities. I shouldn't be forced to choose walkability over safety. This is insulting.				I can't believe how poorly this has been executed. I execute surveys for a living, and there is no way you can actually get statistical validity for this survey, which makes it invalid. It's embarrassing and calls into question the quality of every other action that RISD does. If you can't execute a basic survey correctly, what can you do correctly? If you are seeking to inspire people to explore private schools, then you can count one success. We moved into this neighborhood for WRE, so it's a bit sad that you cannot manage this.
No	Yes	5th-6th at LHJH	None of the Above	Solution #1: Build a 5th / 6th grade school on the campus of Lake Highlands Junior High.	walkability	same boundary lines	traffic	safety	
No	Yes	5th-6th at LHJH	None of the Above	Build a 5th / 6th grade school on the campus of Lake Highlands Junior High.	No School at White Rock Trail	No School at White Rock Trail	No School at White Rock Trail	No School at White Rock Trail	No School at White Rock Trail
No	Yes	5th-6th at LHJH	None of the Above	Build a 5th / 6th grade school on the campus of Lake Highlands Junior High.	No school at White Rock Trail	Proper amount of space required	Safety	Traffic flow	
No	Yes	5th-6th at LHJH	None of the Above	Build a 5th / 6th grade school on the campus of Lake Highlands Junior High.	I do not support building a school within the current attendance area.	I do not support building a school within the current attendance area.	I do not support building a school within the current attendance area.	I do not support building a school within the current attendance area.	
Yes	Yes	5th-6th at LHJH	None of the Above	Create a 5 / 6 grade center at a new location or at the Jr High campus.	safety	walkability			
No	No	5th-6th at LHJH	None of the Above	Add 5th and 6th grades in a separate building on the LH Jr. High campus. All elementary schools in the area could feed into this building if needed.	No new school in current attendance zone.	No new school in the current attendance zone.	No new school in the current attendance zone.	No new school in the current attendance zone.	Walnut Hill Ln. and WR Trail location is not a safe location. No sidewalks for the children and way too much traffic at this corner. Traffic flow is way too congested. Build on the LH Jr. High campus to accomodate 5th/6th grades for many elementary schools to feed. It would also serve for other schools should they become overcrowded.
No	Yes	5th-6th at LHJH	None of the Above	Given what I know about the situation, my first choice is to build a 5/6 center at the junior high campuses. This would alleviate crowding throughout the district, could be done quickly since RISD already owns the land, and would be an opportunity to increase capacity at those campuses to support the growth over the next several years. This seems like a much more flexible solution in that it reduces, or at least delays, the need for new schools, additions to current schools and redrawing of boundaries. I'm not opposed to new schools in general, but I don't believe constructing one to split WRE zone is the best solution to the problem. Growth trends indicate that other schools in the LH area are facing or will face similar problems. The rapid growth at WRE is happening because young families are flocking to the neighborhood for that school. Most of them are building new homes, many upwards of \$1M, and they will stay put long after their kids have left WRE. So I think this is a bubble, and dealing with it by constructing a new school very near WRE will only cause significant under-enrollment in the future. If we are going to build new schools and redraw boundaries, I would much prefer to do it strategically	No school at White Rock Trail	No new school in WRE attendance zone			
Yes	Yes	5th-6th at LHJH	None of the Above	Build a 5th / 6th grade school on the campus of Lake Highlands Junior High.	No School at White Rock Trail	No School at White Rock Trail	It's not safe	It's not walkable	I have concerns that this survey is not connected to a well designed process to yield not only how we solve overcrowding at WRE but address overcrowding throughout Lake Highlands at all grades levels.

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
No	No	5th-6th at LHJH	None of the Above	Build a 5th / 6th grade school on the campus of Lake Highlands Junior High. White Rock Elementary would be K-4.	No school at White Rock Trail	Safety and security	Traffic flow and walkability	Adequately sized site that allows for needed green spaces and parking	
Yes	Yes	5th-6th at LHJH	None of the Above	I believe that a 5/6 center should be added to the site of LH Junior High which will alleviate overcrowding at all the Lake Highlands Junior High feeder schools instead of just at one.	No School at White Rock Trail				I'm concerned that the district is only interested in putting a band-aid on the problem. They appear to be short sighted and ignoring the long term needs of the district and Lake Highlands. The fastest and easiest solution is NOT the best or right solution. I'm also very concerned that the district has already ignored the community once when the Lake Highlands reflector committee clearly voted in favor of a 5/6 center and the district moved in another direction that they had already determined prior to enactment. A 5/6, 7/8 school in the current junior high location serves all of lake highlands and allows for parents to be more involved and make positive changes at the school in these difficult childhood years because they will stay at the same school for 4 years vs 2 years.
Yes	Yes	5th-6th at LHJH	None of the Above	A 5-6, 7-8 school on the current junior high property.	No new school	No new school	No new school	No new school	
	No	5th-6th at LHJH	None of the Above	After considering the pros and cons, the RISD should consider the following: *Building a 5-6 Grade Elementary School on the available property at Lake Highlands Junior High. This could be a separate entity that would make an easier transition for students entering Junior High. *This would be more preferable to changing boundaries in White Rock Valley and more preferable to building another school on WRT, which just isn't a good location for any school. *This would not require the purchase of additional property, and would allow for the sale of the WRT property currently owned by RISD Short Term - Use Portable Classrooms to Temporarily Relieve Lake Highlands Crowding Across the Attendance Zone. Long Term - Build 5/6 grade schools on the campuses of Lake Highlands Junior High and Forest Meadow Junior High. 5th & 6th grade center near LH JH. Make Northlake Elem. a magnet school.	The needs of the students	Feasible traffic flow for drop-offs and pick-ups	Safety and security, i.e., crossing guards, etc.	Walkability to school is not the priority it used to be.	*The wisest decision is not to build a school on WRT, and that option should be taken off the table.
No	No	5th-6th at LHJH	None of the Above	Short Term - Use Portable Classrooms to Temporarily Relieve Lake Highlands Crowding Across the Attendance Zone. Long Term - Build 5/6 grade schools on the campuses of Lake Highlands Junior High and Forest Meadow Junior High. 5th & 6th grade center near LH JH. Make Northlake Elem. a magnet school.	NO school at White Rock Trail	Easy Traffic flow	Walkability	safety	
No	No	5th-6th at LHJH	None of the Above	Build a 5th and 6th school at Lake Highlands Junior High	Safety	Walkability	Traffic Flow	Space	Don't want a new elem. in my area. Dont want rezoning.
No	No	5th-6th at LHJH	None of the Above	Recommend the fifth and sixth grades be moved to Lake Highlands Junior High					No school at WRT There is no land available to build an elementary school in the area that does not have numerous problems with traffic flow, safety, security, walk ability, etc.
Yes	Yes	5th-6th at LHJH	None of the Above	Build a 5/6 grade school on the campus of Lake Highlands Junior High	No school at White Rock Trail	No school at White Rock Trail	No School at White Rock Trail	No School at White Rock Trail	
Yes	Yes	5th-6th at LHJH	None of the Above	Build a 5th/6th center at LHJH that could alleviate and proactively protect all the elementary schools in the LHJH feeder from overcrowding along with WRE.	I do not want another k-6th built in the attendance zone	I do not want another k-6th built in the attendance zone	I do not want another k-6th built in the attendance zone	I do not want another k-6th built in the attendance zone	I do not want another k-6th built in the attendance zone. This is not helpful to WRE, LHJH, or LH as a whole. Please do not repeat the mistakes of the past. Please do not be afraid of a progressive solution. Build a 5th/6th center so the growth in LH can be a positive again and our teachers and families can get back to the real work of educating kids. I find it odd that the options presented in question #7 of this survey are so vague. How could anyone vote for one of these options without knowing more detail on how they would be implemented? Also, where are the Santec analysis results? That information would be helpful in answering this survey. This survey is simple and premature and I would hope that it is just a preliminary gesture to let the neighborhood know that the overcrowding issue has not been forgotten. not a vehicle in which decisions for the future of WRE will be decided. Our attendance zone is so big. I wish there was a way to also support NLE in this process as well.
Yes	Yes	5th-6th at LHJH	None of the Above	Create a new 5-6 model on the Junior High Property	Safety and Security	traffic flow	green space	walkability	
Yes	Yes	5th-6th at LHJH	None of the Above	5-6 grade center on lhjh property. Fix jr high situation as well.	Safety	Walkability			
Yes	No	5th-6th at LHJH	None of the Above	In the short term--Lease Space to Temporarily Relieve Lake Highlands Crowding In the long term-- Build 5/6 grade schools on the campuses of Lake Highlands Junior High and Forest Meadow Junior High. No school at WRT. Am interested in a 5/6 option at the areas junior high campuses. While the school is overcrowded, it's still doing well. It seems as though the junior highs could use some improvements and that would help overcrowding across the district as well as improve the junior highs.	No school at White Rock Trail and Walnut Hill	Traffic flow	Walkability		
No	Yes	5th-6th at LHJH	None of the Above	No school at WRT. Am interested in a 5/6 option at the areas junior high campuses. While the school is overcrowded, it's still doing well. It seems as though the junior highs could use some improvements and that would help overcrowding across the district as well as improve the junior highs.	No school at White Rock Trail				
No	No	5th-6th at LHJH	None of the Above	None of the solutions presented in the survey are acceptable. RISD should consider to Build a 5th / 6th grade school on the campus of Lake Highlands Junior High Build a 5th / 6th grade school on the campus of Lake Highlands Junior High. This solution would alleviate overcrowding in WRE immediately, change no boundaries, and facilitate necessary junior high school capacity expansion, as those schools are under capacity for 2021, by building a modern, cohesively planned facilities. This would change Lake Highlands Junior Higher feeder schools to a K-4, 5/6+7/8 (same campus, but separate facilities, with the 5/6 maintaining and elementary school instructional model, not a secondary school model like is typically used at the Jr. High and High School level), 9-12 model, one currently used in districts like Highland Park (#1 district in TX), Pearland (#42) and Wylie (#54) I prefer building a 5th/6th grade school on the campus of LHJH. I believe it would be the best use of taxes ,, would provide the fastest relief with the least disagreement among those affected ,, and would give the greatest flexibility of facility use in future changes of demographics.	NO SCHOOL AT WHITE ROCK TRAIL	NO SCHOOL AT WHITE ROCK TRAIL	NO SCHOOL AT WHITE ROCK TRAIL	NO SCHOOL AT WHITE ROCK TRAIL	
No	Yes	5th-6th at LHJH	None of the Above	This solution would alleviate overcrowding in WRE immediately, change no boundaries, and facilitate necessary junior high school capacity expansion, as those schools are under capacity for 2021, by building a modern, cohesively planned facilities. No school at white Rock Trail	No boundary re-zoning changes	Traffic flow	Safety and security	
No	No	5th-6th at LHJH	None of the Above	I prefer building a 5th/6th grade school on the campus of LHJH. I believe it would be the best use of taxes ,, would provide the fastest relief with the least disagreement among those affected ,, and would give the greatest flexibility of facility use in future changes of demographics.	no school at White Rock Trail	speedily evacuate-able in event of an emergency/crisis	safety	room to play	
No	No	5th-6th at LHJH	None of the Above	I think the best solution is to add a 5th-6th grade facility to the junior high. This would alleviate the overcrowding at WRE as well as the other elementary schools in Lake Highlands.	Not to build a school at White Rock Trail. It's not safe for walkers and increase the congestion at the intersection.	Safety and security	Traffic flow		I know that the overcrowding at WRE is a concern but the problem exists as a whole at the other Lake Highlands elementary schools. Creating new schools or adding on may be a good solution for the next few years but as the students age out of WRE it's a very good possibility that the student population will decrease as was the case in the 90's when WRE was on the verge of closing. Families won't have elementary age kids anymore and won't be moving out of the neighborhood therefore not allowing for new students to move in.
No	Yes	5th-6th at LHJH	None of the Above	I think the best long-term solution is to build a 5th/6th grade school on the campus of Lake Highlands Junior High. This would help alleviate crowding at WRE and in Lake Highlands in general with no boundary changes. Many school districts have used this model with great success. I have discussed this option with many of my friends and family who are educators and they agree that this is a great plan.	Traffic flow	safety and security			I want to reiterate that I do not want a school built at the White Rock Trail location
No	No	5th-6th at LHJH	None of the Above	Rebuild LHJH including a 5/6th grade center.	No school at WRT				This population boom is cyclical and more emphasis & planning needs to happen with the progression of these children through jr high and high school. I went to WRE along with 4 older siblings, my oldest sister went the first year it opened. My 80 plus parents still live in WRV and my two children attended WRE. This problem of overcrowding was inevitable and ignored by RISD when 3 classrooms were added a few short years ago at WRE. It is really shameful that the district hasn't addressed the growth with hard cold facts instead of projections that were flawed. This should have been no surprise and taking a survey again, at this late date, is frankly disheartening. The neighborhood has given their overwhelming input on more than one occasion & I ask RISD to take immediate action and stop the manipulation. Our property values along with proper facilities for our students and teachers are diminishing. This is your chance to get it right RISD by overhauling LH

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
No	Yes	5th-6th at LHJH	None of the Above	I would look at restructuring the Jr. High. I would allow 6th graders to go there. They have more space for an addition and it would help all the schools in the area. It would be more cost effective and would not split neighborhoods. If this is not an option then I would send everyone north of Walnut Hill and west of Audelia to Northlake and get the standards at that school up again.					We don't need a whole other school built.
Yes	Yes	5th-6th at LHJH	None of the Above	Create a 5th/6th grade center at the junior high or some other location.	keeping neighborhoods together at a school (i.e. not divided by major roads)				
No	No	5th-6th at LHJH	None of the Above	5/6th grade center at LHJH	No school on White Rock Trail	Keep current attendance zone			
No	No	5th-6th at LHJH	None of the Above	Solution 1-building 5/6 and 7/8 additions to Lake Highlands Junior High. I would prefer that the district build a 5th/6th grade center similar to the current 9th grade center. The new center could be built on the campus of Lake Highlands Jr. High School grounds. In addition, the district would need to enlarge the current White Rock Elementary School campus to ensure that overcrowding is no longer a problem. This solution seems to make the very most sense and ensures that families will not have to have children at more than on campus grades k - 4. I think a new school should be built for grades 5-6 on each junior high campus. This would mean that WRE families would not be rezoned. Many districts have this configuration and it is very successful. Adding on would be my second choice.	Building a 5/6 and 7/8 addition to LHJH				I have seen this working in other schools
No	No	5th-6th at LHJH	None of the Above		safe and secure traffic flow	walkability	technology ready for needs of school and students		
No	No	5th-6th at LHJH	None of the Above		safety and security	traffic flow	closeness		
No	Yes	5th-6th at LHJH	None of the Above	Build a new 5/6th grade center at the Junior High School site. My husband grew up in Highland Park ISD where this model was and is VERY successful!	Equal division of attendance zone among single family homeowners and multi-family residents	Equal distribution of students to set both schools up to run at optimal capacity			
Yes	Yes	5th-6th at LHJH	None of the Above	I thank you for the opportunity to provide a solution to the WRE (and LH) overcrowding issues that is NOT listed above. I definitely do not agree that options 1-3 above are our best solution. My husband and I have both been very involved in this discussion since the pre-bond/listening tours starting in 2015 and we were heavily involved in the heated expansion of WRE that was approved in 2012. We clearly need a long-term solution that will bring relief to our schools for the long-haul. We currently have a 5th grader and a 1st grader who are going to be in this system for a long time. I'd love to see RISD develop a long-term plan for success that will support all of our LH kids! With this in mind, I firmly believe that building a 5th/6th grade school on the campus of Lake Highlands Junior High (and also likely Forrest Meadow) is still the single best solution to manage overcrowding throughout Lake Highlands, while at the same time actually bringing several benefits to our students that they are not receiving in the current model. This solution would alleviate overcrowding in WRE immediately without changing boundaries, and also supports all other LH Elementary schools that are near or over capacity in the next few years. White Rock is not the only school that is overcrowded or soon will be! This option also brings much needed support to the junior high which is currently overcrowded by all reports we hear daily from students and teachers and is technically going to be over capacity by 2021. This solution gives Lake Highlands, and RISD the best chance at a modern, cohesively planned facilities plan. And while I believe that this solution should be adopted for all of the LH schools, it could be accomplished for the LHJH feeder only if needed. This would change all LHJH elementary schools to a K-4 model and create a combined 5/6+7/8 campus at the JH site. And, while the two buildings would be located at the same site - they would be separate. The 5/6 center would maintain the elementary school instructional model, while the 7/8 center retains it's current model. This is a widely accepted and successful model and can be seen in some of the "top" school districts in our area - including Highland Park (#1 district in TX) and Wylie (#54). In support of this option, even Dr. Stone has said that it worked well in her former district, Wylie ISD (mentioned above), and I agree with her that it Long term solution: Build a 5th / 6th grade school on the campus of Lake Highlands Junior High. Short term solution - overflow students to neighborhood schools, as they are doing now.	No school at White Rock Trail & Walnut Hill!	There is no where to build in our attendance zone.	A new K-6 does not solve our long-term problems.	We need another plan!	Below are the additional points I wanted to include about my ideas on a 5/6 center but question #7 would not let me - please see them here: Additional benefits include: 1. RISD already owns the land, so it could happen quickly, opening in 2019 without the need to buy very expensive land, if it could even be found or go down the sticky path of eminent domain. 2. This option addresses all of Lake Highlands. White Rock is not the only overcrowded school, it's just the most vocal right now. This solution help everyone by broadly eliminating overcrowding and overflow. 3. Boundaries would not need to be changed for this option, saving RISD the political pain of a nasty boundary re-draw and upsetting community and neighborhoods who often bought their property for "the school." 4. Ensures better coordinate of all special needs at each school and provides them more opportunities for the "extras" that we are missing now due to lack of space: band, orchestra, and possibly earlier introduction of accelerated tracks. 5th & 6th graders have different needs than the very young students they are currently in school with now. A school that is "made for them" could bring so many educational and support activities to the table that they do not have a chance at doing now. 5. This option would actually benefit the Elementary schools by allowing the inclusion of all of their programs at each campus - making space at each school allows them to bring REACH and Special Needs programs back, without the forced centralization of those programs based on space limitations. It also allows Pre-K at all campuses - one of the biggest success factors for all children - an early start on education! 6. Socially this allows a transition for children from the elementary model at a time when they are ready to be out of that model. As the mother of a 5th grader I can assure you they are ready to be away from the younger kids and are starting to tackle the topics, attitudes and emotions of pre-teens. Allowing them to leave the elementary school and mix/mingle with more 5/6 graders from around the area would provide them the opportunity for HUGE emotional development and ease them in to the world of a larger school (meaning larger grade sections) of kids they they have not known their whole life. By doing this in 5th grade, and essentially keeping them at this location for 4 years we give them a huge benefit of more stability, more structure and a broader network of peers with which to work/play with before High School. The current model of keeping kids in their home school until 6th grade - throwing them all together in 7/8 (arguably the two MOST vulnerable/volatile years for any
No	Yes	5th-6th at LHJH	None of the Above		No School at White Rock Trail	Safety and Security	Walkability		No School at White Rock Trail
Yes	Yes	5th-6th at LHJH	None of the Above	We prefer adding a 5-6 grade center at the existing Junior High Campus(es). We would prefer a 5/6 model to alleviate overcrowding for all elementary schools that feed into lhjh. this model once proposed used current land on the junior high campus. Build a new structure to house 5/6 on one wing and 7/8 on another with shared common spaces and sports/recreation.	Neighborhood school - walkable	Traffic flow - safety			
No	Yes	5th-6th at LHJH	None of the Above		Neighborhood/walkability	Safety	Sufficient space both indoor and outdoor	Community support so that it isn't empty	We are frustrated that both short term planning and long term planning for the growth in lake highlands has not been adequately addressed. Very disappointing to live in "top district" that did not properly plan for growth.
Yes	Yes	5th-6th at LHJH	None of the Above	I want to create a 5/6 grade at the junior high. This would also immediately address the crowding issue at lhjh that will be horrific in 2 years.	Will not boarder up to busy streets	Safety - no busy streets & no DART tracks	Sufficient land size with green space for the kids to play.	Walkable	No parking garage
No	No	5th-6th at LHJH	None of the Above	1) NO EXTRA SCHOOLS in WHITE ROCK VALLEY. Period. That CANNOT be RISD's answer to every elementary school over crowding issue. It is ridiculous that this is still on the plate. There HAS to be a long term plan for all of Lake Highlands, not just one neighborhood because we are loud! 2) A grade reconfiguration is one solution for the LH feeder. By 2018, it can solve all of the overcrowding in our elementary schools and provide for the impending tidal wave of kids in the junior high. It gives us a brand new campus at the aging LHJH, which was the original high school. I have found literally no reasons why we should not use the same configuration as used successfully at Keller, Wylie, and HP. We don't need to have the same grade configuration as the rest of RISD, even the same as Forest Meadow. This configuration solves the problems, it's better for kids, and is the fiscally responsible solution. 3) Boundaries. Another solution is everyone north of Walnut Hill go to their "neighborhood" school, Northlake. I'm not sure if that would clear up the space needed at WRE, but it could help and you could have 2 really great elementary schools supported by their neighborhood. When Northlake was built, it was the crown jewel of Lake Highlands...my husband went there. 4) https://wehaveavoicelh.wordpress.com/possible-overcrowding-solutions/ If you are stuck, go here and read some other options. 5) We are cheering for you RISD! You can do better and starting with a LONG TERM PLAN would be a good place to start. It's disappointing to see these decisions you seem to be making on	No new school	No new school	No new school	No new school	You cannot be still considering another school in this attendance zone. This cannot be your answer to all of Lake Highlands overcrowding issues. Stop trying to build something, just because you the bond passed, don't spend all of it in one neighborhood. VERY disappointing.

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
No	No	5th-6th at LHJH	None of the Above	I recommend moving the 6th grade (or 5th - 6th) to the Junior High. My alternate / 2nd recommendation would be to expand WRE. I am vehemently opposed to redrawing any boundaries.	keep boundaries the same	traffic flow			I want to see us use existing sites - could be a combination of adding new rooms at WRE and/or moving a grade (or two) to the Junior High.
Yes	Yes	5th-6th at LHJH	None of the Above	I strongly believe that the best option for WRE and LH as a whole is putting the 5 & 6 grades at the Junior High. This is the same recommendation that the reflector committee created by RISD board gave as there #1 option. The 5/6 grade solution solves many issues and keeps the elementary schools intact. This also allows RISD to address the current and future overcrowding at the Junior High's. A 5th/6th grade intermediate school on the junior high campus is our preference. It addresses overcrowding issues throughout Lake Highlands instead of only focusing on the most immediate need and neglecting issues at other elementary schools and at the Jr. High (where are all these kids going to go to school after elementary??). The worst thing we could do is build a new school in the White Rock attendance zone as it's a long-term commitment in a terrible place that offers little flexibility when it's still there in 20-30 years.	Safety and security	traffic flow	walkability	sufficient size to allow for proper outdoor play: not on a parking garage	RISD should not build a new school in the WRE attendance zone. They should move forward with what the reflector committee presented to RISD as the #1 option, putting 5&6 grades at the Junior High.
Yes	Yes	5th-6th at LHJH	None of the Above	I think the best solution is to build a new school without limiting the location to the current WRE attendance zone, since other schools in the LH feeder pattern are also at or near capacity. In addition, I vehemently oppose a school on White Rock Trail. My top choice by a wide margin is a middle school built on the LHJH property. Second to that would be a location that provides neighborhood walkability, adequate land/green space, and sufficient surrounding roads to handle the parking and pickup/dropoff traffic associated with a neighborhood elementary school.	N/A - I could never support such a terrible idea				I appreciate the work on this, but I would've preferred to see our independent consultant analyze the available demographic and enrollment data and make some recommendations before asking for community input. I feel like we're being asked for input on "solutions" that aren't well thought out. Lastly, please focus on solutions that address capacity issues across the entire Lake Highlands area and at all grade levels.
No	No	5th-6th at LHJH	None of the Above	Build a 5th/6th grade school on the campus of Lake Highlands Junior High. This solution would alleviate overcrowding in WRE immediately, change no boundaries and facilitate necessary junior high school capacity expansion. This will closely resemble the same model as Highland Park schools which is the #1 district in Texas. We feel this is a better balance to have K-4 together and 5/6th together as far as development and maturity.	no school on White Rock Trail	walkability	traffic flow	sufficient parking to support school-wide events	Please use this opportunity to demonstrate strategic planning that will inspire confidence in our school district, rather than continue to erode it.
No	Yes	5th-6th at LHJH	None of the Above	Build two 5/6th (or just 6th) grade centers adjacent to each Junior High in Lake Highlands to provide better balance in ALL Lake Highlands elementary schools. Each of these properties has the capacity to provide this growth and a much needed upgrade to the current junior high buildings. This would also allow for more appropriate academic and social preparation for 6th graders.	safety-not near a high traffic area	security-not close to businesses or general public	walkable	neighborhood setting	I feel strongly that RISD needs to re-evaluate the K-6th setting and change to K-4th as this is a better setting for all students in regards to maturity and development.
No	No	5th-6th at LHJH	None of the Above	Build 5/6 grade schools on the campuses of Lake Highlands Junior High and Forest Meadow Junior High.	No new elementary school	No new elementary school	No new elementary school	No new elementary school	No one in the district leadership seems to want to address (or cares) the issue with the two junior high schools in Lake Highlands. Both schools are busting at the seams and all the kids at the elementary level are moving up in the coming years. Where are they going to sit??? LHJH is not designed for modern day instruction and the classes are overfilled. There is a great opportunity here for RISD to think beyond the K-6 model and use the valuable land they already have at their disposal and solve this issue without having to build another elementary school.
No	No	5th-6th at LHJH	None of the Above	I prefer the 5-6 intermediate school built on LHJH property. Build a 5th / 6th grade school on the campus of Lake Highlands Junior High. This solution would alleviate overcrowding in WRE immediately, change no boundaries, and facilitate necessary junior high school capacity expansion, as those schools are under capacity for 2021, by building a modern, cohesively planned facilities. This would change Lake Highlands Junior High feeder schools to a K-4, 5/6+7/8 (same campus, but separate facilities, with the 5/6 maintaining and elementary school instructional model, not a secondary school model like is typically used at the Jr. High and High School level), 9-12 model, one currently used in districts like Highland Park (#1 district in TX), Pearlman (#42) and Wiley (#54).	No school at the WRT site	Traffic Flow	Walkability	Safety and Security	Thank you for listening and taking into consideration the community's concerns.
Yes	Yes	5th-6th at LHJH	None of the Above	Use the bond money raised to add a wing for sixth graders (and possibly 5th if moving 6th grade only does not create enough capacity at WRE) at the Lake Highlands Jr. High. Remodel common spaces and create enough capacity in the 7-8th grade wings to accommodate the larger incoming classes. Short Term - Use portable classrooms to temporarily relieve crowding across the attendance zone. Long Term - Build a 5th/ 6th Grade school on the campus of Lake Highlands Junior High.	No New School at White Rock Trail	No New School for ONLY WRE students	No New School for ONLY WRE students	No New School for ONLY WRE students	My hope is for you to look at the future of ALL of LH and choose a 5th and 6th grade center. If you choose to build a new K-6 elementary school, all boundary lines should be redrawn for all schools that will be facing over population in the next few years.
Yes	Yes	5th-6th at LHJH	None of the Above	Long Term Solution: Build a 5th / 6th grade school on the campus of Lake Highlands Junior High. Short Term Solution: Solution #T-1: Use Portable Classrooms to Temporarily Relieve Lake Highlands Crowding Across the Attendance Zone.	A lot with enough green space for playground/soccer fields	Enough space to safely drop-off/pick-up (not in a parking garage)	A location that is walkable from the neighborhood	A location that is away from busy streets for child safety and security	This expanding population of children has been evident for years and the problem needs to be addressed by RISD quickly. A solution must be in place by the 2018-2019 school year. The solution should provide a plan for what will happen when less capacity is needed for neighborhood children.
No	Yes	5th-6th at LHJH	None of the Above	5/6 center on property at LHJH	No School at White Rock Trail	No School at White Rock Trail	No School at White Rock Trail	No School at White Rock Trail	Thank you for giving us the opportunity to express our opinions.
Yes	Yes	5th-6th at LHJH	None of the Above	Build a 5th and 6th grade center at the Junior High and put money in to the Junior High for upgrades as well.	No School at White Rock Trail	Security & Safety of the Students and Staff	Classroom Size & Green Space availability	Traffic Flow	Thank you for taking to heart the concerns of our community and collaborating to find a meaningful and workable short-term and long-term solution.
Yes	Yes	5th-6th at LHJH	None of the Above	Build a 5th / 6th grade school on the campus of Lake Highlands Junior High. I would prefer that the district use the land that they already own at Ferndale and Walnut Hill, where the current Lake Highlands Jr High sits (the original high school) to build a 5th/6th grade middle school for ALL of the LHJH feeder schools, there by also having enough money to rebuild a MUCH needed new and separate 7th/8th junior high wing run by the same administration. Our K-6 model is archaic and keeping our 5th/6th graders behind in the arts, academics and social development.	Build 5/6 center				Build a 5/6 center
Yes	Yes	5th-6th at LHJH	None of the Above	Building a 5/6 intermediate school helps ALL of LH. There is growth all over LH - we need to address the problem at the junior high level. LHJH is on it's last leg - it is so old & dated and needs to be rebuilt. Adding a 5/6 wing to the junior high would help ALL elementary schools in the LHJH attendance zone. LHJH sets on a large amount of property and could be rebuilt to better fit the land.	NOT SUPPORTING A 2ND K-6 SCHOOL	safety	safety	safety	
Yes	Yes	5th-6th at LHJH	None of the Above	Build a 5th / 6th grade school on the campus of Lake Highlands Junior High. I would prefer that the district use the land that they already own at Ferndale and Walnut Hill, where the current Lake Highlands Jr High sits (the original high school) to build a 5th/6th grade middle school for ALL of the LHJH feeder schools, there by also having enough money to rebuild a MUCH needed new and separate 7th/8th junior high wing run by the same administration. Our K-6 model is archaic and keeping our 5th/6th graders behind in the arts, academics and social development.	No School at White Rock Trail	no new school in our attendance zone	earlier transition at 5th grade but keep 5/6 elem build at the jr high model		WRE is not the only area with over crowding issues. Building a school only in our zone will only leave us with a school to fill in 10-20 years. build a school that helps all of the area and then rezone
No	No	5th-6th at LHJH	None of the Above	Build a 5th / 6th grade school on the campus of Lake Highlands Junior High. I would prefer that the district use the land that they already own at Ferndale and Walnut Hill, where the current Lake Highlands Jr High sits (the original high school) to build a 5th/6th grade middle school for ALL of the LHJH feeder schools, there by also having enough money to rebuild a MUCH needed new and separate 7th/8th junior high wing run by the same administration. Our K-6 model is archaic and keeping our 5th/6th graders behind in the arts, academics and social development.	traffic flow	safety	security		Roads around the current proposed site are not fit for a school.

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
Yes	Yes	5th-6th at LHJH	None of the Above	#1 is a viable option but not near the top of my list. #2 is simply a terrible, terrible idea (https://www.youtube.com/watch?v=xIA9bNk3b5Q). I mean, anyone who thinks this is a good idea clearly has no understanding of the problems faced by a school district in long term planning. Should more schools be constructed, they need to be closer to the interior of the district to provide planning flexibility in the long term. #3 is so vague and non-specific as to be non-selectable. This simply is not an actual solution without construction *SOMEWHERE* and since somewhere isn't mentioned, how could any sane person select this option. The obvious solution in implementation of an Intermediate School at the Jr. High Campuses, shifting 5th and 6th grades to said intermediate schools, and alleviating overcrowding across Lake Highlands. This model has been highly successful in Wylie, which has experienced growing academic success in recent years, as Dr. Jeannie Stone well knows. Additionally, since the 2 Lake Highlands Jr. Highs, and particularly Lake Highland Jr. High, are significantly undersized for upcoming cohorts, this presents an opportunity to rebuild these buildings with a 50% capacity increase. I would note: - Dr. Stone says that it worked well in her former district, Wylie ISD. She has mentioned liking this model. This was also the model recommended by the Lake Highlands Reflector Committee in April 2016. - RISD owns the land, so it could happen quickly, opening in 2019. - It addresses the entire feeder pattern (where other schools also face severe overcrowding) and broadly eliminates overcrowding and overflows. - Boundaries don't change. - It allows better coordination of special needs support, enrichment activities in 5th and 6th grade (band, orchestra, etc.) and potentially earlier introduction of accelerated academic tracks. A good solution will take time. Classrooms will need to be built somewhere. Something has to be done in the meantime. I recommend that we use portable classrooms to temporarily relieve Lake Highlands crowding across the attendance zone until a long term solution is implemented. - Deploying portables at the point of need reduces overflow and busing of students. - Even where sufficient portables cannot be added support bringing home all overflowed students (like at MPJ) and having them attend nearby schools to CHH (WE, THE WRE, NLE) by obtaining the land on the SE corner of Audelia at Walnut Hill Lane by eminent domain. Most of the businesses on that corner open and close all the time with very little traffic going into that location. The businesses at that corner could be relocated to a number of locations in the area that are empty. If not that area then a school should be located in the NE area of Plano Rd at Walnut Hill Lane. Maybe RISD can do a trade with the city parks department for the land at WRT and move the Frizbee Golf course.	Absolutely no school at WRT	Absolutely no school in the WRE attendance zone			I remain shocked and embarrassed that we are so far down this path and terrible ideas like building a school inside the WRE attendance zone continue to be presented. We can do better. We must do better. Let's get on with the business of addressing attendance growth and capacity issues across Lake Highlands instead of wasting time focused on one specific school.
No	No	5th-6th at LHJH	None of the Above	5/6th center at Jr high. Rebuild NLE and make it a desirable school with more capacity. Get everyone in their home school across the feeder pattern and redraw all boundary lines not just WRE. I would prefer a 5th and 6th grade school built on the site of LHJH. Use Highland Park's middle school as an example of how to incorporate with 7th and 8th grade in the same building but keep them separate.	Safety and security for students/staff should an emergency occur or entering and exiting the location	Traffic flow and convenience to enter and exit and park	Playground area		If you just redid the boundary lines for the schools by using the major streets and intersections and enforced them the schools should balance out. You should consider a school west of Plano Rd from LBJ to NW Hwy. There are over 500 students over there. Homeowners from NLE are attending WE.
Yes	Yes	5th-6th at LHJH	None of the Above	Build a 5/6th grade center on Lake Highlands Junior High campus. Create a campus such as in HPISD. Build on and improve LHJH to include a wing for 5-6 and another 7-8. Shared facilities and better jump into middle school. The HP model works well and our Jr High needs!! Improvements!!!!	safety & security	traffic flow	parking		
No	No	5th-6th at LHJH	None of the Above	No School at White Rock Trail. Preferred plan: Build 5/6 grade schools on the campuses of Lake Highlands Junior High and Forest Meadow Junior High. Building a 5th grade & 6th grade center to include all LHJH schools (WRE, Wallace, Nottlake, and LHE)	No school at WR Trail.				
No	Yes	5th-6th at LHJH	None of the Above	None of the above. No school on White Rock Trail. One solution might be to add 5th and 6th grades to Lake Highlands Junior High. Another idea would be to use portable buildings.	No school at White Rock Trail - but, safety is obviously a priority	No School at White Rock Trail - traffic is an issue	No School at White Rock Trail - Walkability	No School at White Rock Trail - Security	The WRE attendance zone is a passionate community and will support its school--so please don't break up the wonderful experience it is!! Take money otherwise allocated and use to improve the junior high and hire and retain great teachers!!! Once again..... We do NOT want a School at White Rock Trail. The community has spoken. We do not want a school at WRT. Work with us and stop trying to work around us.
Yes	Yes	5th-6th at LHJH	None of the Above	None of the above. No school on White Rock Trail. One solution might be to add 5th and 6th grades to Lake Highlands Junior High. Another idea would be to use portable buildings.	Safety	Walkable	Traffic		
No	No	5th-6th at LHJH	None of the Above	I think the problem facing WRE goes beyond just WRE. I think there should be an overhaul of the LHJH campus to create a 5/6 and a 7/8 school with shared common areas (auditorium, cafeteria) much like the very successful model in HPISD. This will alleviate crowding now at the elementary level at WRE as well as other neighborhood schools, and it will allow for the growth that is happening at the junior high level as well. LHJH is an antiquated building that sits on a huge piece of property with easy access from 3 different streets. It could accommodate both a 5/6 side and a 7/8 side and still have space for an athletic field and tennis courts. RISD needs to remove the barriers it has of all 4 high schools using the same model. Just because the other 3 zones high schools don't have a 5/6 and 7/8 campus does not mean that it shouldn't be considered. The growth happening all over Lake Highlands is truly unique. This is a great problem to have and speaks highly of the confidence families have in these schools. This is an opportunity for RISD to be innovative and rise to the occasion. If they continue to think so narrow-mindedly, it will only weaken the confidence that people have in the schools. If families truly come before bottom lines, then RISD needs to make this right. A school at White Rock Trail is a horrible idea and was a costly and cowardly mistake by RISD. Please listen to the people in this neighborhood and help us to make a solution that helps everyone for the long term. Build a 5/6 and 7/8 campus at LHJH! Would like to see 6th grade center built at LHJH. Use the open space at WRE to remodel and account for over crowded conditions. Added benefit of new construction at LHJH is opportunity to add space and address over crowded conditions at LHJH.	No school on White Rock Trail	Safety and Security		We don't want a school at White Rock Trail.	
Yes	No	5th-6th at LHJH	None of the Above	I think the problem facing WRE goes beyond just WRE. I think there should be an overhaul of the LHJH campus to create a 5/6 and a 7/8 school with shared common areas (auditorium, cafeteria) much like the very successful model in HPISD. This will alleviate crowding now at the elementary level at WRE as well as other neighborhood schools, and it will allow for the growth that is happening at the junior high level as well. LHJH is an antiquated building that sits on a huge piece of property with easy access from 3 different streets. Please listen to the people in this neighborhood and help us to make a solution that helps everyone for the long term. Build a 5/6 and 7/8 campus at LHJH! Would like to see 6th grade center built at LHJH. Use the open space at WRE to remodel and account for over crowded conditions. Added benefit of new construction at LHJH is opportunity to add space and address over crowded conditions at LHJH.	No school at White Rock Trail!	Build at LHJH	Better utilize Northlaje		
Yes	Yes	5th-6th at LHJH	None of the Above	Would like to see 6th grade center built at LHJH. Use the open space at WRE to remodel and account for over crowded conditions. Added benefit of new construction at LHJH is opportunity to add space and address over crowded conditions at LHJH.					We do not support the building of a new school
No	No	5th-6th at LHJH	None of the Above	A 5th-6th grade school built on the site of LHJH or other appropriate site (not WRT).	Multiple traffic entrance(s) off more than one street.	Location that benefits all southern RISD attendance zones; not just RISD			This is not just a WRE issue.

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
No	No	5th-6th at LHJH	None of the Above	Build a 5th/6th grade school on the campus of Lake Highlands Junior High.	Not on White Rock Trail	walkability to the new elementary school, safety and security, traffic flow, etc.			I do not concur with this option
No	Yes	5th-6th at LHJH	None of the Above	Long term solution--Build a 5th / 6th grade school on the campus of Lake Highlands Junior High. Temporary solution until that is done--Use portable classrooms to temporarily relieve Lake Highlands Crowding across the attendance zone	No School at White Rock Trail	safety and security	thoughtfulness in zoning boundaries related to neighborhood sense of community	traffic	1) No School at White Rock Trail 2) Concern--amount of tax payer money already wasted on the White Rock Trail site/effort. The solution to overcrowding needs to happen quickly and effectively with involvement to the people it is effecting
Yes	No	5th-6th at LHJH	None of the Above	Growth in LH is not limited to only WRE. I would prefer creation of a 5-6 campus to share a site with LHJH. If assuming that is not an option, then construction of a new K-6 off of Goforth or Lanshire would be my preference.	Walkability	Green space	Not bordering a major street/intersection	Allows logical division of WRE attendance zone	People would support a new school if it feels equivalent to WRE, which is special because it is truly inside the neighborhood. I think the City of Dallas land off of Goforth is as close to ideal as you could get. Though there would likely still be many opponents due to lack of sidewalks in the Trails.
Yes	No	5th-6th at LHJH	None of the Above	Split the elementary campus into K-3 and 4,5, & 6th grades and then add onto the Junior High	safety	security	traffic flow	walkability	
Yes	Yes	5th-6th at LHJH	None of the Above	Create a 5th & 6th grade center at LHJH to accommodate all growth in LH, not just WRE. Building a school just for WRE attendance is extremely short sighted. Please think outside the typical RISD box! This overcrowding issue is not just a WRE problem. Please look at the plan that puts 5th/6th together on the land at LHJH. That building is so old and needs work.	Safety	Traffic	Walkability	Parking	A school at the WRT location is a horrible solution and should not be considered for the reasons listed above, as well as not addressing the needs of all LH students.
Yes	Yes	5th-6th at LHJH	None of the Above	We support a 5/6 grade model that removes these grades from the elementary schools and puts them at the junior high campuses. Today this is a WRE issue but several other schools are on the same path of growth. RISD should be considering a longer term strategy	Neighborhood access	Play ground and green space	Proximity to homes attending the school		i really don't think a new school is the correct answer
Yes	Yes	5th-6th at LHJH	None of the Above	I want to see white rock elementary be a part of total lake highlands facilities planning and have a 5/6 center on the junior high property as part of a 5/6 combined with a 7/8. I would also like to see overcrowding at the junior high and high school addressed now. The need is eminent and going to get worse as kids go into the junior high.	I don't want new school in the attendance zone.	I don't want a new school in the attendance zone	I don't want a new school in the attendance zone	I don't want a new school in the attendance zone	Please don't ask question 8. I want all of those qualities in a school. There should be no compromise. You should figure out what makes a school great location wise and then build it. Period. Also this survey is not community engagement.
No	No	5th-6th at LHJH	None of the Above	Create 5/6 Centers at the junior high campuses. Reconstruct the LHJH campus it is too small for what is coming upstream already and also at just the 7/8 grade levels it is also out of date.					I do not support a new K-6 being constructed in the WRE attendance zone of any kind. I do support new elementary schools in the Lake Highlands feeder pattern.
Yes	Yes	5th-6th at LHJH	None of the Above	Build a 6th grade or intermediate center Possible solution: Build a 5th / 6th grade school on the campus of Lake Highlands Junior High. This solution would alleviate overcrowding in WRE immediately, change no boundaries, and facilitate necessary junior high school capacity expansion, as those schools are under capacity for 2021, by building a modern, cohesively planned facilities. This would change Lake Highlands Junior Higher feeder schools to a K-4, 5/6+7/8 (same campus, but separate facilities, with the 5/6 maintaining an elementary school instructional model, not a secondary school model like is typically used at the Jr. High and High School level), 9-12 model, one currently used in districts like Highland Park (#1 district in TX), Pearland (#42) and Wylie (#54)	Safety	Traffic			Set up for long term growth and prepares us for long term future in regards to attendance throughout LH portion of RISD
Yes	Yes	5th-6th at LHJH	None of the Above	Rezone all elementary schools going into Lake Highlands Middle School and build a 6th grade transition school on LHJH campus.	Safety and Security	Land for children to play and enjoy recess	Walking to school; so enough room for safe sidewalks, etc.	Not too close to existing neighborhood school	Spend the money wisely and take your time with decisions. Thank you for caring about this neighborhood and it's children.
Yes	Yes	5th-6th at LHJH	None of the Above	Expand Lake Highlands Jr. High for future capacity and move all 6th grade classes, in the area, to the Jr. High. This would help overcrowding issues that will occur at all area elementary schools in the upcoming years. Attendance zones may also need to be rebalances but rebalancing alone will not fix the problem. Start preparing for the large amount of students that will be moving into the Jr. High/High School in the next few years. Focusina on iust WRE is short sighted.					Building a new school will fix the issue temporarily. White Rock Valley will continue to grow with young families in the upcoming years. Then these children will move to an overcrowded Jr. High once out of elementary.
Yes	Yes	5th-6th at LHJH	None of the Above	Build a 5th / 6th grade school on the campus of Lake Highlands Junior High - PLEASE READ ALL THE BELOW. In addition to solving for long-term WRE attendance fluctuations, we also need to identify, plan and solve for the very large challenges at Lake Highlands Junior High. Teachers, facilities and leadership all all sub-standard. While there are a few good teachers and coaches, the leadership and actual facilities need to be drastically upgraded. With a new generation of families on the cusp of entering LHJH (see today's WRE involvement), there will be a renewed focus on LHJH and how inadequate that school is today. There needs to be a specific plan in place to address both WRE and LHJH. With the amount of land at LHJH, to could simultaneously build a new LHJH plus a new 5/6 school while continuing to use the old LHJH. But, a building is only one part. Leadership (principal) on down needs to be evaluated and elevated. We have two children that have recently been through LHJH and have first-hand experience of how that school gets "lost" or passed over in expectations between WRE and LHHS. Time to get	No School at White Rock Trail	Plenty of outdoor spaces	What it will do to my property value		Address the serious issues at LHJH (see question 7 response).
No	Yes	5th-6th at LHJH	None of the Above	Build a 5th / 6th grade school on the campus of Lake Highlands Junior High.	Safety and security-- all are important	Not dividing our neighborhood	Walkability	Traffic flow	All of our children should be able to attend our own neighborhood elementary school--we do not want to be divided. There should be a way to temporarily house all WRE kids until a permanent solution is reached. I am in favor of adding on to WRE but my first choice is a 5/6 grade intermediate for LH.
Yes	Yes	5th-6th at LHJH	None of the Above	Move 5-6 to the junior high	I do not support a 2nd school in the WRE zone under any circumstances	I do not support a 2nd school in the WRE zone under any circumstances	I do not support a 2nd school in the WRE zone under any circumstances	I do not support a 2nd school in the WRE zone under any circumstances	Yes, I am terribly disappointed by RISD's lack of long term planning that has led to this situation. I also feel that many of actions by RISD on this subject so far have been manipulating, childish and in some cases reprehensible.
Yes	Yes	5th-6th at LHJH	None of the Above	Move 5/6 grades to the Junior High site and expand that campus to handle this and the growing sizes of 7/8 grades. It makes sense developmentally for the 5/6 grade kids and keeps the boundaries the same. Eventually, attendance numbers will decline and this allows for growth and decline in the future. It's the best long term and immediate option.					Please eliminate the additional K-6 school option. It does not serve the future needs. The junior high capacity issue is critical. If you move 5/6 there and expand that site, it solves capacity issues and will get neighborhood support.
Yes	Yes	New 5th-6th School	None of the Above	I would prefer WRE be a smaller subset of grades to keep the community together. Move 6th grade out of elementary or, if you build a new school, let it be a 5th, 6th and 7th grade school. Something like that. Splitting the neighborhood will neagatively impact home values and relationships among neighbors.	The neighborhoods south of Walnut Hill should not be divided. Our kids have a community.	Neighbors should b able to carpool.	Community support.	Traffic flow (North of Walnut Hill or South of Walnut Hill)	
No	Yes	New 5th-6th School	None of the Above	5th/6th grade center	Safety of students	Walkability	Traffic flow	All of these should be achieved for an elementary school	

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
Yes	Yes	New 5th-6th School	None of the Above	Would like to see a 5th and 6th grade center/campus that is NOT on the same campus as 7th and 8th graders and NOT at White Rock Trail.	Safety	Traffic flow	Cohesive neighborhood	Walkability	Would love a new school or campus at the property on 7901 Goforth, which is currently the Dallas City Offices.
No	Yes	New 5th-6th School	None of the Above	Move 5th and 6th to another campus	Safety	Traffic flow	Space for adequate playground	Walkable	Concern for the lack of preparedness
Yes	Yes	New 5th-6th School	None of the Above	Why not use this opportunity to create a modified grade model? Specifically pulling grade 5&6 out of elementary. Many other districts do this and it works great.	I don't want another K-6	I don't want another K-6	I don't want another K-6	I don't want another K-6	We need to pull 5&6 from elementary schools and move them to the campus of junior high.
No	No	New 5th-6th School	None of the Above	Build a 5-6 grade center that will service all the elementary schools in the Lake Highlands cluster. This will free up classrooms in all the elementary schools for grades K-4 and take care of the over-crowding problem in all the schools.	traffic flow	space - there should be room for large playgrounds	safety and security	walkability	Do not build a school on White Rock Trail. It is a terrible location for a school and will destroy the neighborhood. It only solves the overcrowding problem at WRE. There are other schools in the LH cluster that are near capacity. Look for a solution that will be useful to all the schools and the LH community as a whole.
Yes	Yes	New 5th-6th School	None of the Above	Create a 5-6 grade center that fixes overcrowding throughout Lake Highlands. I think a 5th and 6th grade center is the best option, I have kids in Lake highlands high school right now and it has a overcrowding problem too. I can't imagine how big the problem will be when the continued growth of the elementary kids get there. If you build a 5th and 6th grade center, it will take the pressure off the elementary schools and you can focus on a bigger problem, which is finding a a solution for the fixing the Junior high and high school over crowding problems that will hit us in the future. *****My second option would be rebalancing the current attendance zones	Safety	Traffic issues			
Yes	Yes	New 5th-6th School	None of the Above	No new school at WRT. I think 5-6 grade center would be the best option for long term growth and overcrowding across Lake Highlands.	No new school at WRT	No new school at WRT	No new school at WRT	No new school at WRT	I am concerned about overcrowding across Lake Highlands and think that 5-6 grade center is the best option. It has worked well for other districts.
Yes	Yes	New 5th-6th School	None of the Above	Create a 5th and 6th grade center/school	Safety	Walkability	Traffic flow		
No	No	New 5th-6th School	None of the Above	Change RISD into middle schools instead of junior highs like most school systems.	safety	walkability	traffic flow		RISD should talk with community before leaping into this project. RISD has not been doing it's homework are we would not have this problem.
Yes	Yes	New 5th-6th School	None of the Above	Create a 5-6 "intermediate" intermediate school.	Inside the neighborhood	Walkability			RISD'S philosophy has always been to have in neighborhood schools. This is a big selling factor when choosing a school district.
Yes	Yes	New 5th-6th School	None of the Above	Separate k-4 and build new 5-6.	Walkability	Traffic flow			
No	Yes	New 5th-6th School	None of the Above	I believe that making WRE a K-4 Elementary and then having a separate 5th and 6th grade school is the best solution.	Safety	Large geographic footprint	Walkability	Traffic	
Yes	Yes	New 5th-6th School	None of the Above	We think that building a 5-6 grade center would be the best. It would provide relief for all LH elementary schools who's attendance fluctuates with generational or neighborhood growth.	Safety	Outdoor/green space			We would prefer that it not be on or facing a major through street (walnut hill, skillman, royal, nwhy)
Yes	Yes	New 5th-6th School	None of the Above	My husband and I are in favor of making a 5/6 grade center. Eventually, all of this overcrowding will slow, as most families will likely stay in their homes long after their kids have completed elementary school, etc. What this neighborhood does not need is an empty school, or empty classrooms b/c there aren't enough kids to fill the spaces. The Jr High and High School are overcrowded now. Addressing WRE doesn't solve the bigger issues. The kids from WRE and surrounding elementary schools will bring the overcrowding to the Jr High and HS.	No school at WRT	Safety at the site (for drop off/pick up, evacuation during an emergency, ability to get away from more than one side of the bldg)	Ability to walk to school quickly in an emergency-think of the two nursing homes on WRT)		It is important that the board and the homeowners work together. Whatever decisions are made, affects the people who live in the neighborhood, not the board members. I think we can all agree that safety for staff and kids, walkability, Overcrowding at the Jr High and HS, and traffic flow are major areas of concern.
Yes	Yes	New 5th-6th School	None of the Above	Make the current WRE school a K-4 and create a 5th and 6th grade school for the older kids to bridge into middle school.	No school at White Rock Trail				Don't divide up the neighborhood with a redraw of boundary lines. Part of the charm of Lake Highlands and WRE is the community involvement and support this community has for each other. Breaking that up could lessen the draw to the neighborhood, and could backfire if a new school is built that splits the neighborhood in two. A new school is not a good solution if it would open over half empty.
No	Yes	New 5th-6th School	None of the Above	Please add a 5th/6th center. We grew up in Highland Park and their 5th/6th intermediate school was and is very successful.	Single family homes and multi family apartments be distributed evenly	Capacity be distributed evenly	traffic flow	If at the WRT location, widen the road	
No	Yes	New 5th-6th School	None of the Above	build a new 5-6 school so all kids in neighborhood can go to school together The middle school option, as employed by HPISD, works well. Additionally, exploring an option of a Pre-K-2 campus like Dobie Primary could be state of the art. Early childhood is so important and there is much research to indicate that this demographic needs more attention. The argument that it creates another unnecessary transition for the children does not take into account that children are more resilient than their parents... and can easily transition to "big school" after 2nd grade. These smaller kiddos could be effectively housed at the WRT campus that currently sits empty and unused	Size of school-400-600 max	Neighborhood feel	Diverse population	Quality of admin and faculty	WRE lan too big. But trying to still pretend it is a cute little neighborhood school. I have had children at WRE for 13 years, and have 1.5 more. I have literally lived the changes. Parents have to wait in line to attend class parties. Donuts with dad/muffins with mom: chaos. Open house is like Grand Central Station. Be willing to think outside the box. Balance out the schools. The WRE area will level put afain as these families grow up but don't move. The JH will need attention, and then LHHS. Things will level out. This growth will not be sustained. Look forward. Fix the JH and LHHS. Make the entire feeder pattern a destination within the district. It isn't rocket science
Yes	Yes	New 5th-6th School	None of the Above	Create a new school in the current WRE attendance zone that encompasses only 5th and 6th graders on its campus. I do not have enough information to know wnetner any or tne three items, alone, will solve the current problem. I like the idea of a 5/6 grade center for all of Lake Highlands because I think that this may also address problems that are pending at the junior high. I understand that RISD has rejected this option, but I note that it works in other districts. In any event, the boundaries need to be redrawn because there are too many homes feeding into WRE. Those living north of Walnut Hill should be rezoned to NLE - immediately. That bit of rezoning (while just a start) is clear and makes common sense to anyone who looks at a map or is familiar with our area, and should occur now - to help address problems with the incoming 2017 Kindergarten class. Money and commitment should be put into NLE to make it a desirable neighborhood school	safety including environmentally safe (eg. no lead in soil)	security - sufficient setback and room for secure design	sufficient space for growth	walkability - not having to cross major roads	Insufficient context to answer question. What is the plan to address future growth for the Jr. High and High Schools?
No	Yes	New 5th-6th School	None of the Above	Build a middle school in the current WRE attendance zone, not K-6. Depending on the plans, I may also be convinced that adding a new building on the WRE campus could work. I believe that the issue needs to be addressed at a level higher than WRE. ALLof LH is experiencing growth and a 5/6th center would address this greater need as well as alleviate WREs issue. Some adding on would likely be needed at WRE as well but that is needed now as there is no music room, nor adequate teachers lounge, gym or cafeteria space.	If a school is absolutely going to be built, I don't think the site should only affect WRE attendance zones	I don't want to build a new school and think that redrawing boundaries may be able to solve the problems	safety and security	walkability	While I understand that WRE is an immediate need (and my family is feeling that personally), trying to find a solution for WRE, alone, without including it in the larger "facilities plan" or whatever Stantec has been engaged to create, is nonsensical in my opinion. Let's redraw boundaries asap and commit to make NLE a desirable neighborhood school.
No	Yes	New 5th-6th School	None of the Above	I would like a 5/6th grade center.	Safety	Play space		Walkability	
Yes	Yes	New 5th-6th School	None of the Above	Build a middle school in the current WRE attendance zone, not K-6. Depending on the plans, I may also be convinced that adding a new building on the WRE campus could work.	Walkability	Adequate recreational facilities/playgrounds			My only priority is proximity to be able to walk to school.
Yes	Yes	New 5th-6th School	None of the Above	i believe that the issue needs to be addressed at a level higher than WRE. ALLof LH is experiencing growth and a 5/6th center would address this greater need as well as alleviate WREs issue. Some adding on would likely be needed at WRE as well but that is needed now as there is no music room, nor adequate teachers lounge, gym or cafeteria space.	demographics and size remain consistent across schools ie: multifamily, number of homeowners etc	i dont really think this is the solutio	this is not a good solution	not a good solution	add on to WRE to make it better and address the larger lh wide issue with 5/6th centers.
Yes	Yes	New 5th-6th School	None of the Above	I would like to keep the attendance zone and create a 5/6 center.	No school at WRT	No school at WRT	No school at WRT	No school at WRT	
Yes	Yes	New 5th-6th School	None of the Above	Add a 5th and 6th grade center	Safety	Security	Walkability		
No	No	New 5th-6th School	None of the Above	Create a 5th-6th grade center.	equitable racial diversity for the new school AND White Rock	adequate space availability	safety	traffic flow	Care must be taken to avoid creating a racially isolated island of white homeowners for WRE. The racial diversity of Lake Highlands should be reflected in the population of both schools.

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
Yes	Yes	New 5th-6th School	None of the Above	I would prefer RISD accept the proposal (from what I understand) to swap the land at Walnut Hill and White Rock Trail for the city land on Goforth. And THEN develop that into a 5th, 6th grade center. This would keep our neighborhood in tact instead of dividing it in two. And this model has proven to be highly successful at a number of other districts. There is no reason we can't evaluate other more effective models versus the standard "but this is the way we have always done it." We should create a 5/6 grade school within the WRE attendance zone to relieve overcrowding.	This is an unacceptable alternative. Dividing the neighborhood should not be done.	This is an unacceptable alternative. Dividing the neighborhood should not be done.	This is an unacceptable alternative. Dividing the neighborhood should not be done.	This is an unacceptable alternative. Dividing the neighborhood should not be done.	
Yes	Yes	New 5th-6th School	None of the Above	I like the idea of creating a new 5-6 campus	All of the above	All of the above	All of the above	All of the above	
Yes	Yes	New 5th-6th School	None of the Above	Pull out 5th and 6th grade and make an intermediate school/middle school.	I do not want a new school within the WRE attendance zone.	I do not want a new school within the WRE attendance zone.	I do not want a new school within the WRE attendance zone.	I do not want a new school within the WRE attendance zone.	No new school in the WRE attendance zone. I think the best option would be to pull out 5th and 6th grade as highland park has done. This keeps all the Wre kids together and no splits within the neighborhood.
Yes	Yes	New 5th-6th School	None of the Above	I moved to Highedge to walk my kids to school. I prefer a 5-6, keeping boundaries intact. No re-zoning!!	I don't want a new school in the attendance zone	I don't want a new school in the attendance zone	I don't want a new school in the attendance zone	I don't want a new school in the attendance zone	I don't want a new school in the attendance zone, unless it's 5-6
No	Yes	New 5th-6th School	None of the Above	I believe that a grade reconfiguration is the best solution for the LH feeder. By 2018, it can solve all of the overcrowding in our elementary schools and provide for the impending tidal wave of kids in the junior high. It gives us brand new campus at the aging LHJH, which was the original high school. I have found literally no reasons why we should not use the same configuration as used successfully at Keller, Wylie, and HP. We don't need to have the same grade configuration as the rest of RISD, even the same as Forest Meadow. This configuration solves the problems, it's better for kids, and is the fiscally responsible solution build and 5th and 6th grade center. it works in HP/UP- first choice, rezone- second choice	SAFETY & SECURITY	WALKABILITY	TRAFFIC FLOW		The community has spoken. Let's make a solid, educated decision and move us forward. I have a Jr High student at LHJH and an incoming kinder in 2018. The leadership at LHJH is lacking and great teachers leave us each year. LHJH NEEDS serious help and guidance. Standing still on the issue and continuing to put together "focus groups" etc, accomplishes very little.
Yes	Yes	New 5th-6th School	None of the Above	Create a 5/6 center	safety	traffic	walkability	size	
Yes	Yes	New 5th-6th School	None of the Above	Create a 5-6 center at wrt site	Safety & security	Green space for children to play	Technology	Traffic flow	
Yes	Yes	New 5th-6th School	None of the Above	Create a 5th and 6th grade center within the current attendance zone to avoid having students divided into two zones or having students within the zone overflowed into other campuses.	Walkability	Continues to be a neighborhood school			If WRE is expanded, common areas such as library & cafeteria must be added.
No	Yes	New 5th-6th School	None of the Above	Create a 5th and 6th grade center within the current attendance zone to avoid having students divided into two zones or having students within the zone overflowed into other campuses.	safety and security	traffic flow	walkability		
Yes	Yes	New 5th-6th School	None of the Above	I think we should have a 4-6 campus built in the attendance zone to have a more technology focused school for older students.	walkability	not crossing major streets (traffic flow)	not breaking up our neighborhood feel		I would like to have the natural attendance zones considered to keep the walkability and safety of our students. This is what makes our neighborhood so safe and special and how we meet our neighbors. This is why people come from all over and try for months to find a home in this neighborhood and what makes this a special school at RISD. It also brings in a lot of tax dollars for RISD with the home prices...
No	Yes	New 5th-6th School	None of the Above	Add a 5/6 grade center. We have done this survey before and RISD doesn't seem interested in listening: the majority seem to support a 5-6 grade center. No stuffing a new elementary school on a dangerous parcel of land (WRT), no boundary re-draws, happy neighborhood. I have seen projections from RISD regarding other schools (LHE and 1 or 2 others) that will soon be at or above capacity. It would make sense to plan ahead and create the ability to alleviate future over crowding at these schools as well.	No school at WRT	No school at WRT	No school at WRT	No school at WRT	
Yes	Yes	New 5th-6th School	None of the Above	Preference would be a creation of a 5th-6th grade school for WRE kids. Second option would be addition to the school.	No parcels of land that will fit a new school	Change in property values or the threat of will create widespread concern	No such place exists that meet your criteria examples	No one will be happy-- listen to your taxpayers and build a 5-6 center	When are school board elections?
Yes	Yes	New 5th-6th School	None of the Above	Preference would be a creation of a 5th-6th grade school for WRE kids. Second option would be addition to the school.	Student safety	Walkability	Potential attendance zone that promotes neighborhood feel of new school		Strongly opposed to adjusting all LH attendance zones and moving WRE kids out of WRE unless there is a grandfather clause for kids that are already in the school and their siblings. We moved to this neighborhood with the expectation of giving our kids the consistency of the same elementary school. We would be very opposed to uprooting them to a new school midstream.
Yes	No	New 5th-6th School	None of the Above	5th and 6th grade center is first option. However, it is not a choice. 2nd option is expand WRE.	No school at WRT.	Dividing children evenly between the schools (Economically as well as other factors.) Majority of homeowner children should not remain at one school	New school size. 800+ kids is too large for 5 acres. It should be a small school if land size is not large.	Boundaries	5th and 6th grade center should be reevaluated. Additionally, this survey is premature. The facts regarding the growth as well as projections should be discussed before voting on solution.
No	No	Other	None of the Above	Dr Stone's solution	No school at White Rock Trail/ Walnut Hill	No school at White Rock Trail/Walnut Hill	No school at White Rock Trail/Walnut Hill	No school at White Rock Trail/Walnut Hill	
Yes	Yes	Other	None of the Above	The second and third proposals are too ambiguous to choose.	All criteria listed above should be used for choosing the site.				Try to come up with a long term solution that will solve all of LH's overcrowding issues and not a solution that will solve immediate issues, but cause further issues down the road (maintainability).
No	No	Other	None of the Above	I think it would be dangerous for children and a major increase in traffic on a small street if you ever build a school at White Rock Trail and Walnut Hill Ln. Another school in our zone may be acceptable but NOT the WRT location. We want a school that is safe, walkable and supported by the families in this zone. Adding on may also be acceptable depending on the plans. The current WRE should would be K, 1 and 2 and focus on the basic skills or reading, writing and arithmetic. A new school in the WRE current attendance zone would be 3-6 (STAAR) grades and have state-of-the-art technologies in every classroom. The new school would be a technology focused school preparing the students for their 21st century careers. This 3-6 school could be placed on the WRT site but would keep the WRE families together. The schools could share the PTA since parents would be at both schools. If you do build a new school anywhere in the Lake Highlands area, you should build with technology in mind. Please don't speed through the process to build just another school. Take technology, security, open campus concepts in mind with designing this 21st century school.	Safety of children	Traffic	Traffic	Safety of children	
Yes	Yes	Other	None of the Above	Use portable classrooms to temporarily relieve Lake Highlands crowding across the attendance zone in order to take the time to THOUGHTFULLY determine alternate solutions which are AGREEABLE with the community.	Safety and security, not on a busy road	Supported by the parents so that the school and students succeed	Walkability and green space to play	Traffic flow	The community MUST be involved in the decision and agree with it. RISD lost our trust when they vandalized private property and when they tried to divide the community.
Yes	Yes	Other	None of the Above	Use portable classrooms to temporarily relieve Lake Highlands crowding across the attendance zone in order to take the time to THOUGHTFULLY determine alternate solutions which are AGREEABLE with the community.	safe location- away from HIGH traffic streets and intersections	located in a neighborhood and not at a bust intersection	school boundaries need to be consistent with the neighborhood it serves, not busing kids miles away just because it is a new school		Be transparent with the process and over communicate.
No	No	Other	None of the Above	Use portable classrooms to temporarily relieve Lake Highlands crowding across the attendance zone in order to take the time to THOUGHTFULLY determine alternate solutions which are AGREEABLE with the community.	Absolutely no school at the White Rock Trail site				I am concerned with the district's complete lack of transparency and appalled that district officials have used false and inaccurate information to attempt to persuade the community to adopt its plan.
No	No	Other	None of the Above		walkability to new elementary school	campus as large as that of WRE in safe, quiet neighborhood	minimal traffic in proximity of school	safety and security	
No	No	Other	None of the Above						

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
Yes	Yes	Other	None of the Above	No School at White Rock Trail	No School at White Rock Trail	Safety and security	Traffic Flow	playground being there which would be in a safe section for elementary kids	
No	No	Other	None of the Above						We do not want a new school in our neighborhood. Huge concerns that will drive me to be 100% dedicated to electing new school board members for every single individual that proposed and assisted in the purchase of the site at White Rock Trail. RISD is 10 years late in projecting or responsibly planning for any growth in lake highlands. They contribute to be short sighted by pushing adding on to WRE or placing something in our neighborhood. We want a real solution and a long term plan for ALL of lake highlands.
No	Yes	Other	None of the Above	I don't want a new school in the attendance zone	I don't want a new school in the attendance zone	I don't want a new school in the attendance zone	I don't want a new school in the attendance zone	I don't want a new school in the attendance zone	
No	No	Other	None of the Above	A neighborhood elementary school with upwards to one thousand students is unacceptable. To alleviate the overcrowding, RISD should consider a Middle School structure at least for the Lake Highlands community if not for the entire school district. I know of no other large district where K through 6th grade are all still in elementary school. Specific suggestions include utilizing the Lake Highlands Freshman Center building for a Junior High campus freeing up one or both present Junior High campuses for lower grades in the form of a Middle School. If the High School campus cannot currently accommodate grades 9 through 12, then adding on to that property to allow a Junior High at the Freshman Center and then a Middle School at one or both current Junior High campuses makes more sense than adding on to White Rock Elementary or wedging yet another K through 6th grade elementary school into the neighborhood. The reality is that these increases in numbers of elementary school children will continue through the upper grades as these children grow up. Consequently, those upper grade campuses must also be included in the strategic planning that is going on now. Simply redrawing lines or adding another elementary school is a reactionary approach not addressing the long-term needs as these students continue on to ultimately graduate from the High	traffic flow	safety & security	single-story campus design	walkability	Strong consideration should be given to utilizing the undeveloped Town Center property on Skillman North of Walnut Hill Lane. The disqualifying response to this suggestion has always been the cost of the property, rezoning, etc. But its larger land size and potential for structuring better traffic patterns makes much more sense than did the White Rock Trail location fiasco.
Yes	Yes	Other	None of the Above		Safety and security				
Yes	Yes	Other	None of the Above		Traffic flow	Safety			
No	Yes	Other	None of the Above	I would need more detail related to the options listed above before I would be able to make an informed decision.					I would recommend having some specific solutions instead of broad general choices prior to sending out a survey. I also believe capacity will eventually become an issue with at LHJH and some proactive thinking instead of reactive thinking will be needed.
No	No	Other	None of the Above		No school in White Rock Trail				
No	No	Other	None of the Above		No School at White Rock Trail				
Yes	Yes	Other	None of the Above	I do not want a megaschool. I would like to see Northlake improved during this process and utilize the land there as part of the solution, making it a desirable neighborhood school again.	Safety and security	Traffic flow	Walkability		
No	No	Other	None of the Above		No school on White Rock Trail				All of my three children attended WRE I have watched for over 30 years changes in our area. Children grow up and then you have no children once again. When we moved here we were the younger couple with children but those around us all either went to LHHS or other. We do not need to rush anything we will rearet for the future.
No	No	Other	None of the Above	Do whatever it takes to attract and develop the same kind of homeowner support of Northlake elementary as we have at WRE. Whatever it takes. I feel like I do not have the necessary data to make a recommendation. I have a Ph. D in education and am a professor of education at SMU and while I appreciate you asking my opinion it is just that, an opinion. I would give a response based on my personal preference for my three kids but that does not seem like what a district should base its decision on. I am hoping more data are provided about the effect of all of these choices on long term planning beyond my kids and the White Rock attendance boundaries.					
Yes	Yes	Other	None of the Above	No school at WRT: no rezoning the current attendance zone unless balancing is equal....no one school can have only homeowners, nor should some children (apartment) have to walk past a new school to maintain diversity at WRE...rezoning must be equitable to both WRE and a new school....diversity maintained at both; after the PEG information came out today I would say most LHN Homeowners (especially those with school age children) would oppose attendance rezoning to Northlake	traffic flow	walkability/safety	equitable diversity balance		
Yes	Yes	Other	None of the Above	Use portables. Have the district reallocate money to improve technology in ALL schools. I am torn between the idea of building on to WRE, either permanently or adding portables to ride out the next few years of student influx AND the idea of changing the jr high to a 5/6-7/8 model. It seems like whereas we are having an immediate issue with the elementary school, this problem is going to follow us right to jr high and high school. As I stand, I feel as if this is a problem that is going to follow my children through k-12 without addressing the problem across the feeder pattern.	Safety of students and parents	Walking access to campus	Traffic flow	Community unity	Destruction of community unity
Yes	Yes	Other	None of the Above		Not WRT	Safety	Size of plot of land	Traffic	
Yes	Yes	Other	None of the Above	Convert Northlake and WRE into a single attendance zone with split grade configuration. Second choice is to add on to White Rock Elementary.	splitting current attendance zone equally by total numbers and economic disadvantaged percentages	bringing in apartments at Walnut Hill and Audelia to provide diversity in both White Rock schools	walkability		
Yes	No	Other	None of the Above	make Northlake elementary an outstanding early Childhood Education Center for WRE and Northlake zoned students. WRE would be 4-6 grade for all students. The Northlake option would benefit low-income families in our neighborhood by assuring an equal start for all students, while incorporating economic and racial diversity early on. The split school would allow WRE's outstanding parental involvement to benefit both schools. Early Childhood Education is proven to be THE most effective program to help students read on grade level and stay in school, so state, federal and private grants are increasingly available in Texas. Moreover, grants are also available for career education in high school, so you could add an Early Childhood Education career track to LHHS and provide opportunities for those students to earn part-time hours at the Northlake Early Childhood Center, which is one block away from LHHS	Do not use park lands.	Do not build near high school - safety and traffic issue.	Equalize racial and economic diversity across schools.		

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
No	No	Other	None of the Above	Issue School Choice vouchers to parents in the WRE District allowing them to choose for themselves where their children can receive the best education. Do not push parents i to other schools just because they adjoin the WRE boundary lines. WRE's excellence is why these folks spent big bucks to kerp their children in a quality public school not just anothr RISD school! All RISD schools are not equal. Neighbors just across that magical boundry line spend housprs daily and major dollars to put their children into Excelkent Privste Schools when public schools are not top notch! To move ant child is to devalue their parents home value! Do not re-					There is no alternative land short of Hollywood OH Door land ot Flag Pole Hill that has room for any reasonable re-location for a school and playground! Schoold Boards actions like RISD are pushing folks into School Choice vs Public Shools as we know them since 1940's thru 1950's!
Yes	Yes	Other	None of the Above	If we get a new school within WRE I think that the attendance boundaries for either old or new school should not cross Walnut Hill or Audelia except to possibly include those already Zoned to WRE currently. We should never have crossed over Walnut Hill. It needs to stay a "neighborhood" (walkable) school. Do not try to do White Rock Trail. We need a new site. The 5/6 center has merit IF: the center is NOT at a current Jr. High Campus and if honors/pre-ap classes are offered. I would also be open to a 5/6 WRE only center so we don't take away students from smaller schools such as MPE. This way we can serve the population of WRE without changing boundaries, or RISD's model in general and keep our community "together". Also, if population falls in future decades we could push everyone back into WRE and repurpose the building for other RISD use. Rezoning option- would depend on where you cut the boundaries. No one should cross Walnut Hill or Audelia.	attendance should not cross major road (Walnut Hill/Audelia)	Walkability		The split should "make sense" from a geographical perspective	Don't try White Rock Trail. Its done. Please make sure we have enough green space.
Yes	Yes	Other	None of the Above	Do a k-2 school at purposes site and make white rock a 3-6 school.	Playground size	Safety	Walkability	Traffic flow	Needs to be done ASAP
Yes	Yes	Other	None of the Above	I suggest Using Portable Classrooms to Temporarily Relieve Lake Highlands Crowding Across the Attendance Zone	Safety	Traffic	Walkability		
Yes	Yes	Other	None of the Above		safety and security of students	safety of children and families to WALK to the school	consider some long term planning so school won't be empty in 15 years		
Yes	Yes	Other	None of the Above		Do not split current WRE attendance zone	Do not bus in kids from across LBJ	Land the size of all other schools		
No	No	Other	None of the Above	I do not have children at the school, so decision does not effect me I am very against a school at the WRT location and adding on to WRE. We do not need a mega school in our neighborhood. And the WRT is an absolutely horrible location.	No school at WRT				
Yes	No	Other	None of the Above						
No	Yes	Other	None of the Above	If any rebalancing of the WRE attendance zone was done, I would expect it to make sense geographically first and foremost. There are children already crossing Walnut Hill, a major thoroughfare and not part of WRV, and if those children stayed at WRE and others within the WRV neighborhood were zoned out, I would personally be furious. We bought a house within a very safe walking distance of the school (our street dead ends into the school), which was our #1 priority when searching for the house. If we got zoned out, and/or there overflowed to another school, I would move and/or send my child to private school. Safely walking to school is one of my top priorities and in my opinion the way that schools should be built and zoned.	I do not want a new school within the already existing WRE attendance zone	I do not want a new school within the already existing WRE attendance zone	I do not want a new school within the already existing WRE attendance zone	I do not want a new school within the already existing WRE attendance zone	There are other options that will address enrollment growth throughout the district that would not involve splitting up our neighborhood.
Yes	Yes	Other	None of the Above	No school at WRT I believe the right solution is to expand Nortniake Elementary and to create special programs inside of NLE that attract more single family homeowners. The current WRE attendance zone is primarily broken up into 4 quadrants: (1) 600 students = WRV and it's neighborhood association south of Walnut Hill and East of the Jackson Branch Creek (2) 100 students = Single family homes north of Walnut Hill (3) 200 students = Multifamily units north of Walnut Hill along Skillman (4) 60 students = Multifamily units south of Walnut Hill along Skillman (will likely grow to 75-100 students over time with construction of apartments) The 600 students within the WRVNA should be allowed to stay together at one school (WRE). It is truly their neighborhood school and is within walking distance of every home without having to cross a busy street. The remaining seats at WRE should be primarily filled with students from multifamily units to help balance diversity. Moving the 100 students in single family homes north of Walnut Hill to NLE and creating special programs within NLE would help create a catalyst for diversifying NLE. This may include magnet programs, gifted programs, or other special programs. These programs could then be opened to families south of Walnut Hill if they choose to send their child to this special program. In addition you could create harmony between the two schools by doing joint programs over the next five years and integrating the youth sports teams (half the team would be from WRE and half the team would be from NLE). With proper community support (financial) it may even offer some economically disadvantaged students an opportunity to participate in youth sports that they couldn't afford to participate in before. This is an idea that Adequate options have not been researched. The board needs transparency and accountable for the communities it serves. If there is growth at the K-6 level, where	No school at WRT				
No	Yes	Other	None of the Above	is the plan to expand the junior high and beyond? Right size all grades. RISD needs to take a wholistic approach to the Lake Highlands overcrowding issue. This is not just a WRE issue. RISD will need to build one or more elementary schools and need to address overcrowding at the junior high and high school. When RISD chooses a site for elementary schools, it should provide ample green space to play - RISD has already taken too much free time (i.e. Creative non-structured learning) opportunities away from our children. RISD is too focused on trying to sell a nice building and has lost sight of effective education. I know RISD is in a tough situation but it botched the White Rock Trail site. It could and it should do better. Schools should be walkable by the attendees. Also the boundaries should allow for neighborhood interaction at the school. The WRT site missed on both of these issues.	Walkability	Sufficient Green Space (more than 7 acres)	Safety	Neighborhood Feel	I think dividing the White Rock Valley community is a horrible idea and unnecessary. Those ~ 600 students deserve to stay together, because they live and play together. I also believe the 5th/6th option is an option that we would regret for years down the road and would negatively impact pre-teens (transition), grades, and the overall goal of being a destination district.
Yes	Yes	Other	None of the Above	We are now happy with the idea to bus students that don't have siblings to other schools, as adding onto WRE should NOT be an option as it's getting too big. (I need more info to be able to choose from #2 and #3 above, i.e. need perspective on attendance numbers at other LH elementary schools to see if building another school or rebalancing is necessary.)	None of the above	None of the above	None of the above	None of the above	Transparency and accountability are REQUIRED in this process.
No	Yes	Other	None of the Above		Safety of access	Green space for physical activity	Coherent boundaries	Walkable	
Yes	Yes	Other	None of the Above						

RISD VALIDATED SURVEY RESPONSES

Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	RESPONSE CLASSIFIED AS:	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	2nd Priority	3rd Priority	4th Priority	Do you have any other comments, questions, or concerns?
No	Yes	Other	None of the Above	I'd love to see division of WRE into an early childhood school (pre-k and maybe some ppccd/specialty through kinder) that could even be shared with LHE or MPE, reducing some overcrowding in those schools while also providing a space that better addresses the needs of our smaller students. I believe Carrollton-farmers branch isd has a good model for this program. I am not opposed to adding to WRE, Safety and security nor am I opposed to redrawing some of the attendance zone lines. I feel like this last option is more of a short term solution, though if growth continues and other schools also meet their capacity, it is practical to have students located in a more logically drawn attendance zone.		Traffic flow (ties into the above)	Allows for Logical division of the existing WRE attendance zone	The topography allows for a well designed and constructed school that fits the allotted budget.	I am hopeful that RISD will finally listen to the demands that its exceptional growth have placed on the district, and plan for continued growth across the area. I look forward to open communication, and some innovative thinking as we work together to find effective ways and locations to educate our children. The growth is a testament to your strength as a district... it also gives you immense responsibility for our children. I trust you will not let us down.
No	Yes	Other	None of the Above	I think north lake should be expanded to hold a magnet program, maybe a Montessori elementary or stem program or bilingual school that would attract people from the WRE zone and improve north lakes resources. Many other districts Diversity are adding more innovative programs than RISD. As a 2nd choice, I believe attendance zones should be rebalanced.		Safety	Traffic	Walkability	I am disappointed the board didn't hire the third party consultant a year ago and then make a decision instead of trying to please everyone, pleasing no one and doing nothing.
Yes	Yes	Other	None of the Above	I think all of Lake highlands should be looked at. My understanding is that there is projected enrollment growth among all of the schools. We need a new school and attendance boundaries should be considered across the LH area to provide balanced schools based on our diverse demographics.					I think the above question is difficult to answer. All are important issues and should be taken into consideration.
No	No	Other	None of the Above	RISD needs to address a long term solution to over crowding in all of Lake Highlands, not just WRE. Eventually all these elementary students will graduate to the Jr High and the time to start addressing that over crowding is Now! Imo, if a new school is built, RISD should take out an apartment complex to do so and redraw some boundaries to balance attendance. Another solution might include expanding Northlake Elementary as well. And redrawing boundaries to balance.	NO school at the White Rock Trail location!	Traffic flow	Safety		Building a school at the property on White Rock Trail and Walnut Hill is a horrible idea! Traffic is already congested at times in the morning and afternoon when school lets out. Adding a school would create a nightmare on Walnut Hill around that location, not to mention what it would do to White Rock Trail which is only 2 lanes. The property is too small and the district is spending the same amount of money building there as they would acquiring a better location. Lake Highlands as of now is apartment rich. Taking out an apartment complex to build a school, possibly around the Church rd. and Skillman area would be a much better solution!
Yes	Yes	Other	None of the Above	Only one of my kids will be a WRE in 5 years and she will be in 6th grade. This is a really difficult survey to answer. It is to one sided to WRE can't we build another school outside of the attendance zones. What about a Kindergarten location? I think Kinders are so young and need different kind of attention. It could be build within the attendance zone. They don't need the amount of land that the other grades need. Also if they did a 5/6 grade center I need to know more about that before I can make that an option. Initially I don't like it because I think 5th grades are too young to be on campus with 7/8 graders. There is too much long term that can go wrong and hormones are kicking in. I think we need to rebalance some of WRE to Northlake and add on to Northlake. Can this be done? You could walk to school and it would be a it a great school and I know parents are trying to make it better. What about putting the WRE/NLE kinders at Northlake? Probably most the schools need to be added on to and then rebalance. I think you will have to rebalance the current zones. I don't like the idea of a 5 and 6 grade center that	Safety	Should be equal to the other schools in the area with land	No to divide up the neighborhood to bus others in.		This survey was really hard to answer. It felt limiting. I needed more specifics. Thank you though for making it available.
Yes	Yes	Other	None of the Above	Build a gifted and talented academy	No school at white Rock trail	Address growth all over lake highlands			This is not just a WRE issue. All of lake highlands is growing and other elementary schools are almost as crowded as WRE. Plan accordingly. Also have a plan for the Jr high and high school as these children age.
No	No	Other	None of the Above	Build a new school on the WRE playground and tear down the old school when new school is finished.	continue high quality of staff	walk to school (reason we moved here 23 years ago)	safety, security, traffic, flow	WRE anchors this subdevision	White Rock Valley subdivision has a long history of supporting, promoting, and protecting our neighbored school, our subdivision, Lake Highlands, and RISD. We will continue to do so as long as we have a neighborhood school.
Yes	No	Other	None of the Above	Build a new WRE school 4-6. Change existing White Rock Elementary campus to K-3.	Safety and Security	Safe outside play area			
Yes	Yes	Other	None of the Above	I would recommend building a new school at the property that is currently owned by the city of Dallas on Goforth. This is a much safer spot, much better on the neighborhood and has the potential to get as much land as necessary to build a smart school.	No School at White Rock Trail	Location & Land Space. Get enough land and everything else will take care of itself. Safty, walkability, traffic,and security.	Buy lots of land and do this the right way.

RISD EXCLUDED SURVEY RESPONSES

REASON NOT COUNTED	Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	Do you have any other comments, questions, or concerns?
invalid address	Yes	Yes	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.			
2nd household response	No	No	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		safety and security	walkability traffic flow sufficient playground space
2nd household response	No	Yes				
2nd household response	No	Yes	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.			
2nd household response	No	No	None of the Above	Move 5th and 6th to jr high grounds. WRE is a dump--sorely outdated. Build new facility on its existing green space. When finished, turn old building into green space.	Get it done-- 1,000 kids are way too many	Take action, get this done. The district needs to get a handle on this and make it happen. You can't please everybody. Just because people are parents does not mean they are educators.
2nd household response	Yes	Yes				
2nd household response	Yes	Yes	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Safety Traffic Flow Walkability	Distance from Home It isn't ideal to spread the students out but would be the best quickest fix vs building an entire new school. It will most likely require adding onto several other schools though. Something must be done soon. It isn't fair to have to send kids to other schools within their zone.
2nd household response	No	No	None of the Above	No School on White Rock Trail	Safety	Walkability to residential area Low traffic (not abutting a major street intersection) Accessible for dropping and picking up children, if not walkable No school on White Rock Trail, which meets none of the criterion above.
2nd household response	No	Yes	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Safety	Security traffic flow walkability This problem cannot be put off any longer. The school board members needs to take responsibility and make a final decision, one way or another, or they will need to be replaced.
2nd household response	No	No	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Safe and Secure	Walkability Traffic Flow
2nd household response	No	No	None of the Above			
2nd household response	No	No	None of the Above			
2nd household response	Yes	Yes	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Dividing the attendance zones between the two schools fairly with respect to demographics and ratio of multi-family to single family No School at White Rock Trail	Outside playground area We have and continue to support the construction of a new school at WRT but selected adding on to WRE because it seems more palatable to the community as a whole. If the RISD Board opts to rezone WRE kids to other neighborhood schools, then the survey respondents that chose this option as their preference should be the houses that are rezoned to other schools.
2nd household response	Yes	Yes	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety and security	Walkability Traffic flow Green space Safety
2nd household response	No	No	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Safety of children	Traffic flow No
2nd household response	Yes	Yes	None of the Above	None of the above		no school at WRT- Transparency is the issue- RISD
2nd household response	Yes	Yes	None of the Above	Build a 5th / 6th grade school on the campus of Lake Highlands Junior High. This solution would alleviate overcrowding in WRE immediately, change no boundaries, and facilitate necessary junior high school capacity expansion, as those schools are under capacity for 2021, by building a modern, cohesively planned facilities. This would change Lake Highlands Junior Higher feeder schools to a K-4, 5/6+7/8 (same campus, but separate facilities, with the 5/6 maintaining and elementary school instructional model, not a secondary school model like is typically used at the Jr. High and High School level), 9-12 model, one currently used in districts like Highland Park (#1 district in TX), Pearland (#42) and Wylie (#54)	No School at White Rock Trail	
2nd household response	Yes	Yes	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		FAIR division of boundaries within White Rock Valley!	
2nd household response	Yes	Yes	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.		Walkability Saftey	Green space
2nd household response	No	No				
2nd household response	Yes	Yes	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.			
2nd household response	Yes	Yes	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.			
2nd household response	Yes	Yes	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		no school at White Rock Trail site	walkability green/play space class room size
2nd household response	Yes	Yes	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.			

RISD EXCLUDED SURVEY RESPONSES

REASON NOT COUNTED	Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	Do you have any other comments, questions, or concerns?		
2nd household response	Yes	Yes	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.	Please revisit the White Rock Trail school. Rip the band-aid off and fix the issue. Do not appeal to the few who squeaky wheels that bark the loudest. You will never appease everyone in the neighborhood. Do what's best for the children, stand behind your decision, and make it happen. Show stats that safety is not an issue at that site. Show that the traffic patterns would be modified. Get a good lawyer and solve the deed restriction issue. Show how safety measures would be in place in regards to the DART station across the street. Look at Merriman park. Look at White Rock Trail North. Look at LHJH. Look at what DISD today with their eminent domain powers at an even more busier intersection than this one. Right now, you are going down the path to have an all-white WRE school with absolutely no diversity and more community divisiveness. It's awful right now. Completely & totally embarrassing. Those of us north of Walnut Hill have no idea where our little ones will go to school next year. 2 years. 3 years. etc. down the road.	Location within the neighborhood. Safety	Amount of greenspace Traffic Flow (which can be managed)	The WRT location is not a safety concern for me. There is a private school on the exact same intersection that has been around for dozens of years, with over 300 students.	
2nd household response	No	No						
2nd household response	Yes	Yes	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Traffic Flow Safety			
2nd household response	Yes	Yes	None of the Above	Construct a 5th & 6th grade center on the existing Lake Highlands Jr High Property to address the overcrowding of all of the elementary schools that currently feed into LHJH.	safety & security walkability	traffic flow equal distribution of the student population	if we are constructing a new school to address over crowding than there should be two schools of similar size. Not one school with approximately 300 students and another elementary school with 600 students. Disperse the kids/population evenly.	
2nd household response	Yes	Yes	None of the Above	Addition of new campus serving 4-6 grades to alleviate overcrowding.	Safety for outdoor entry, exit and play Breaking siblings apart	Ease of access to school (aka traffic flow) Walkability	Needs to not severely impact home value while maintaining neighborhood feel and too education.	
2nd household response	Yes	Yes	None of the Above	Build a 5th and 6th grade building that will provide relief to multiple local elementary schools including WRE.	Walkability	Security and safety	Traffic	
2nd household response	No	Yes	None of the Above	Build 5/6 grade schools on the campuses of Lake Highlands Junior High and Forest Meadow Junior High.	Safety	Traffic	Walkability	
2nd household response	Yes	Yes	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Safety	Traffic Flow	Walkability	Definitely concerned about all of the Lake Highlands area and how this growth will not only affect our elementary schools but junior and senior high schools as well.
2nd household response	Yes	Yes	None of the Above	I would pick rebalancing if that would solve the issue now and in the projected future and if it were implemented where no kids had to cross a major street to get to their schools.				
2nd household response	Yes	Yes	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		safety & security	ease of access to and from school grounds room to grow in the future		
2nd household response	Yes	Yes	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		Do not divide the neighborhood. Do not build a 2nd unnecessary school. Do not divide the neighborhood. Do not build a 2nd unnecessary school.	Do not divide the neighborhood. Do not build a 2nd unnecessary school.	Do not divide the neighborhood. Do not build a 2nd unnecessary school.	Building a separate school creates same logistical issue as adding on to WRE. Once this population bubble is through, there will be extra unused capacity in either an expanded WRE or a new school. RISD should be addressing overall population issue of LH and not simply concentrating on WRE.
Incomplete response	No	Yes						
Incomplete response	No	Yes						
2nd household response	Yes	Yes	None of the Above	I would love to have a K-2 and 3-6 school within the boundaries much like Brentfield.	walkability	not too close to WRE	enough land for outdoor space traffic flow	Please think about the K-2 and 3-6 model! I truly think this influx of families will ebb. I would hate to change the boundaries then have two schools that aren't fully utilized in a few years. This way we can reintegrate and use the newer school for other RISD needs.
2nd household response	Yes	No	None of the Above	I think a 5th-6th grade campus that serves WRE, LHE, NLE and Wallace is the best option. Look at Azle ISD. They have a high-growth rate, great teacher retention, great test scores and they have a similar structure. So do a ton of districts across the state.	Safety	Walkability	Traffic	The interior lot school is why everybody be moved here. Something similar would make the most people happy.
Incomplete response								
2nd household response	Yes	Yes	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Plenty of outdoor space	Sufficient cafeteria space for a normal lunch hour deep within White Community; not on periphery	Room for specials and library	The most economically responsible thing to do is re-draw the attendance boundaries right away and build more capacity in the right place (not White Rock Trail in my opinion. I hear the city properties on Goforth and Church St have been considered. Each seem to have plenty of space for nice, new schools.
2nd household response	No	No	Add on to White Rock Elementary and create capacity to accommodate current and future students at the current site. This option may require expansion of common areas such as cafeteria and the library.		walkability to new elementary	security	no eminent domain taken to acquire new site	
2nd household response	Yes	Yes	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.					

RISD EXCLUDED SURVEY RESPONSES

REASON NOT COUNTED	Do you currently have children attending White Rock Elementary?	Will your children be attending White Rock Elementary in the next five years?	How would you prefer RISD address the overcrowding at White Rock Elementary?	If you selected None of the Above, please specify	If RISD chooses to build a new K-6 school within the current attendance zone, please list your criteria(s) in order of importance for choosing a site for the new elementary school. Examples of criteria(s) could be walkability to the new elementary school,	Do you have any other comments, questions, or concerns?
2nd household response	Yes	Yes	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.		Safety Traffic flow Size (900+ kids in a school does not work) Safety and security	Size at WRE has been a huge problem for at least 4 years. It is getting worse not better. I am frustrated that RISD spent money on the White Rock Trail land, cleared it and then backed off because of some bullies in the neighborhood. We need fewer kids at WRE. It is unsafe and it is a nightmare getting into and out of the school on a daily basis. The rest of the LH schools have no idea what we deal with on a daily basis. But they also fight because they are not impacted and want to keep it that way (redrawing boundaries). It is unfair to my children to receive lesser programs and education (lack of computer time, up to 40 kids at a time in specials, etc) because RISD is afraid to make a hard decision. Something has to be done. I am moving two of my children to private schools because I am tired of what is happening at WRE and considering trying to transfer the other that receives speech and dyslexia services to another, much smaller, LH school. That is a travesty because we moved to WRE for the neighborhood school. We did not get that in Dallas ISD and desired it for our kids. We have been here for 5 years and have totally lost
2nd household response	No	Yes	None of the Above	Expanding the Junior High/Middle School. Adding a 5th/6th grade center.	Traffic Flow Walkability Safety and Security Green space	
2nd household response	Yes	Yes	None of the Above	I like the idea of a 5th and 6th grade center - would help alleviate growth at all RISD elementary schools. If that is not feasible, I would prefer we add on to WRE	no new K-6 in current attendance zone	YES! Very concerned about when all of these kids get to LHJH, if we don't have room for them all in elementary school we aren't going to have room at the junior high (and high school). I want to know how we are addressing the growth as all the kids move from elementary to junior high??? EXTREMELY CONCERNED!!!!
2nd household response	Yes	No	None of the Above	there needs to be a new school to deal with all the LH growth, not just WRE. Build a new school in a decent location and adjust all the boundaries. And more importantly, stop ignoring the fact that the junior highs are about to have these same overcrowding issues.	Safety and security traffic flow	thought into future demographics walkability none of the above suggestions were taken into account for the ridiculous site at White Rock Trail. Millions of \$\$ spent, amazing.
2nd household response	Yes	Yes	None of the Above	Build a 5th / 6th grade school on the campus of Lake Highlands Junior High. I taught at Bradfield Elementary in Highland Park for many years and this is the successful model that they have used for several decades.	No school at White Rock Trail Look at other surrounding LH elementary school's numbers before deciding on building a school that only accommodates white Rock	Continue to listen to the community for a collaborative answer to this problem.
2nd household response	Yes	Yes	Rebalance the current attendance zones and spread the additional students out across other local schools. This option will require rezoning the WRE school attendance zone.	Other preferred option would be to build a new Jr. High/Middle School to include 6th graders.	dont want dont want dont want dont want	
2nd household response	Yes	Yes	None of the Above	Create a 5-6 grade campus and repurpose current 5-6 classrooms to accommodate K-4		
2nd household response	Yes	No	Create a new K-6 school within the current White Rock Elementary attendance zone. This option will require dividing the WRE attendance zone into two separate elementary school zones.
